

**PRECISION**  
HEALTHCARE TECHNOLOGY

PRECISION HEALTHCARE TECHNOLOGY,  
VIA OUR FULLY TURNKEY PROGRAMS,  
**WILL CHANGE YOUR FUTURE  
IN THE NEXT 10 MINUTES!  
GUARANTEED!**

Do you really need a bureaucratic committee to approve a program that shows your missed compliance-based revenue, that we can prove you're not doing with CMS/Payer data, then we do all of the work for you, charge you nothing upfront, and you change nothing about how you operate?

- Most providers are missing between \$200,000 and \$350,000 in compliance mandated services they are completely unaware of.
- We're going to get that for you with no upfront cost, no new technology to learn and no new staff responsibilities, and you change nothing in your operations!
- Nothing is owed until after insurance pays, and then only about 5%-7% on two of our programs (Your NPI), and \$0 on the other two programs (Our NPI).
- We can launch in 72 hours, and take full responsibility for program introduction, onboarding, and implementation.

## **HOW DOES PRECISION WORK?**

Every time you submit a claim, the algorithms within CMS and other payers are looking to see if you acted on the new medical necessities revealed from your last encounter, costing you very significant revenue on missed mandated services.

This data is not accessible via your EMR, only with Precision. Since 2007 Precision Healthcare Technology has collaborated to architect and build these value-based measurement and grading systems and knows exactly what they are looking for. We will do all the work for you!

**MOST PROVIDERS ARE MISSING OUT  
ON BETWEEN \$200,000 & \$350,000!**

Precision can get this compliance-based revenue for you with no upfront or out of pocket cost, and without you changing anything about how you operate today! Always FREE to ACOs and Medicare Advantage programs. We can launch in 72 hours!
