

DWI Solutions

YOU FOCUS ON THE CASE I'LL HANDLE THE REINSTATEMENT

Helping Attorneys Deliver Exceptional Client Service

Your clients don't need you to become a driver's license reinstatement expert.

When you entrust a client to DWI Solutions, I develop an individualized driver's license reinstatement strategy, manage the process from beginning to end, allowing you to focus on your client's legal matters.

Why Attorneys Choose DWI Solutions

- I evaluate each client's circumstances, identify available options, and recommend the most appropriate reinstatement approach.
- With more than 12 years of driver's license reinstatement experience, I stay informed of evolving Minnesota DVS procedures and requirements, helping ensure each client's reinstatement reflects current practices—not outdated assumptions.
- Every client works directly with me throughout the reinstatement process, without handoffs to another employee or call center.

Why Timing Matters

Every reinstatement decision affects what comes next. Early involvement provides the greatest opportunity to preserve available options, avoid unnecessary delays, and develop the strongest reinstatement plan.

Military Precision I Personal Commitment

The same disciplined approach that guided my 26-year Air Force career continues to shape how I manage every reinstatement: Strategy. Timing. Execution.

What Attorneys Say

"Julie gets results, is responsive, and treats my clients with respect. I completely trust her and highly recommend her services to attorneys and their clients." – Ringstrom DeKrey
