

PortalWall® —Manufacturing Resource (MC²™)

Date: September 2, 2025 – UPDATE 7 PM

From: Yonatan Zvi Margalit — Owner & Sole Inventor, PortalWall®; Active-Wall™ and Patented MC²™ Manufacturing Steps

To: Stakeholders, supply-chain partners, advisors, and select customers

Purpose

This notice provides a measured update: a local manufacturing resource has agreed to commence production support for **PortalWall® assemblies** under the **patented MC²™ process**.

This is not a speculative announcement. It builds on more than a decade of working dialogue and collaboration, now moving forward into a practical, factory-based production path.

Status

- **Commitment secured Friday, August 29, 2025**
 - **Confirmed Tuesday, September 2, 2025**
 - The understanding is clear: **PortalWall® issues a purchase order; the partner manufactures.**
-

Relationship History (Attestation)

- Collaboration began more than ten years ago with raw material purchases.
 - A **CA/NDA** was executed to protect early PortalWall® Opaque Infill™ mockups.
 - Those mockups were not project-specific, but aimed at validating concepts.
 - Ongoing technical dialogue has informed today's approach.
-

Development Summary

- The partner is already familiar with PortalWall[®] workflows.
 - We will begin with **PortalWall[®] Opaque InfillTM assemblies**, with gradual adaptation toward full **MC²_{TM} methodology**.
 - This step advances PortalWall[®] from concept compatibility into practical, repeatable manufacturing capacity.
-

Ownership & Control (Clarification)

- **All IP, trademarks, and trade secrets remain owned solely by Yonatan Z. Margalit.**
 - The partner manufactures **only against purchase orders**.
 - No rights, licenses, or exclusivity are granted or implied.
-

Next Steps (Indicative)

1. Issue first purchase orders for pilot production.
 2. Conduct first-article inspections and QA verification.
 3. Expand production gradually as demand and capacity align.
