**Come to the country.  
Let's figure out your Kitchen.**

*"Every piece is made to last out here,  
so that your space can be crafted  
to feel like home."*

We're a small crew from different paths, but we build like it matters—carefully, and with pride in our work.

It's the kind of work your grandpa would put his hand on, give a nod, and simply call good.

Out front, there's an old copper beech tree. She's been through a lot over the years and given our family shade, firewood, countertops, and a lot of memories—even though she's not as young as she used to be.

She's bent over a little now, still holding up the tire swing the grandkids love. We named the company after her.

“ The Crack Doctor did a great job. The job was difficult because of Radiant heating. Luke thought out the whole process and was very careful not to damage the heating system. His resourcefulness was truly amazing. Great Job! ”

Ron S.

“ We rate the work done today as top notch. The guys showed up on time and got to work after discussing what they would do to repair a leak in our basement. We were very impressed by their professionalism and pleasant manner. We would recommend this company. ”
