Tactile graphics by [Name of tactile graphics specialist]

Proofread by [Name may vary throughout book]

Utah State Instructional Materials Access

Center

Ogden, UT

In _ Preliminary Volumes, _ Volumes,

_ TG Volumes, and _ Supplements

Volume _: [Chapter and section]

Braille pages t1-t, p1-p, and 1-

Print Pages _ and _-

Commented [WU1]: On line 1. Include publisher name and grade if included in print.

Commented [WU2]: These are all required if present in print. If needed, you can place 2 segments on one line separated by a semicolon.

Commented [WU3]: Follow print for use of "By" or equivalent

Commented [LL4]: Follow print if the state is spelled out or the abbreviation is used.

Commented [WU5]: "ISBN" goes on the same line as the number. Follow print for spacing and punctuation

Commented [WU6]: Use 2 blank cells to represent a large space in the printing history.

Commented [WU7]: For partial chapters/units, use the first and last Table of Contents entries with page numbers.

Commented [WU8]: (on line 25)

(Remove blank lines as necessary to fit on one page. If all information fits on one page, leave t2 of interpoint volumes blank.

If the title page information does not all fit on one page, place proofreader information on t2. If that is not sufficient, add tactile graphic specialist info and then transcriber info. Printing history can follow the other information if necessary.

Unless stated otherwise in our template or guidelines, follow Braille Formats Principles of Print-to-Braille Transcription, 2016 for formatting t-pages.)

SPECIAL SYMBOLS
USED IN THIS VOLUME

- ⋮⋮ Dot locator for “mention”
- ⋮⋮⋮ Opening general fraction indicator
- ⋮⋮⋮ Closing general fraction indicator
- ⋮⋮⋮⋮⋮⋮ Ray AD {example}
- ⋮⋮⋮⋮⋮⋮⋮⋮⋮ Line AD (double-ended arrow over AD) {example}

- ⋮⋮⋮⋮ Grade 1 terminator
- ⋮⋮⋮⋮ Grade 1 passage indicator
- ⋮⋮⋮⋮ Capitals terminator
- ⋮⋮⋮⋮ Dash
- ⋮⋮⋮⋮ Capitalized passage indicator

TRANSCRIBER'S NOTES

Print errors are retained in braille.

Commented [WU9]: This is required on all transcriptions. Do not correct print errors.

All print paragraphs are blocked. All braille paragraphs are indented.

Footnotes are brailled directly after the paragraph to which they apply.

Selected Answers are moved from the back of the book to the end of the volume to which they apply.

When two words are shown within one shape, a passage indicator is used rather than two word indicators.

Commented [WU10]: For example, "Write Math" shown in one rectangle or bubble or something. This does not apply to highlighted words.

Illustrations without captions are omitted.

Only those images needed for understanding or for completing exercises are retained in braille.

Multi-part exercises may be split across braille pages. Each part will be kept on a single page.

This volume contains labels for graphics enclosed in Transcriber's Note indicators. The labeled graphics are contained in a separate Tactile Graphics volume, called a TG volume.

This volume has been transcribed according to the *BANA Guidelines for the Transcription of Early Educational Materials from Print to Braille*.

Transcriber's notes that appear in this volume are listed below, including the pages on which they appear.
