ATTENTION CALIFORNIA RESIDENTS:

Products containing lead require the Proposition 65 Leaded Crystal Warning (shown on page 180).

Products requiring this warning have "Lead Crystal" noted next to each item.

For products labeled as handblown crystal glass or machine-made glass:
these products contain no deliberately added lead. They contain very small amounts of environmental
lead from sand and other ingredients used in the process.

“ Sterling Cut Glass helped with my event trophies over the past 15+ years. Sterling makes the process of selecting and ordering very easy. The entire process from start to finish is done very professionally and very efficiently. Sterling never misses a deadline and is very easy to work with when I've needed to make changes. Planning the trophies for my events was always easy with Sterling, and definitely took a lot of stress off of me.

Ron Rawls, PGA, Retired Head Golf Professional
Crane Creek Country Club

SPIRAL COLLECTION

Add a twist of color to your next event with the Spiral Trophy Cup Collection, featuring exquisite handblown crystal accentuated by a stunning handcrafted spiral design. Now available in three vibrant colors—black, red, and blue—alongside the clear option, these trophies combine elegance with distinction.

“ Our goal is to put smiles on the faces of our members, and I love how Sterling Cut Glass is the last smile of the day as we present the hardware following each event!

Todd Firestone, Head Golf Professional
Meridian Hills Country Club

COLOR SPLASH

A fresh, vibrant, attention-getting technique featuring a unique splatter of intense color chips hand blown into the crystal. Each handcrafted art piece is a one-of-a-kind showstopper! Mix and match colors for your next big award presentation.

“ Hands down, Sterling Cut delivers exceptional quality without fail. The entire team (from the sales reps, to the internal team) are always willing to do what it takes to deliver what we need in a fast and cost effective manner. There is no question they are at the top of our list when providing the best products to our membership.

“ My experience with Sterling Cut Glass over the past 25 years has been nothing but spectacular. I cannot recall one incident in this time where I was not thrilled with their service, communication, or product that we received from them and their team. They have wonderful products at great value and have been able to handle all of our needs (many in a “pinch”) in a very professional manner. We look forward to continuing our relationship with them for years to come!

Don Meadows, PGA Director of Golf
Quail Valley Country Club

CASED CRYSTAL

Add dramatic color to your next trophy presentation! Our cased crystal collection features winning trophy designs infused with a permanent layer of colored crystal. This unique artistic technique lends a rich glow in your choice of opaque black, opaque white or translucent midnight blue. All deeply etched and elegantly color-filled in your choice of gold or silver.

“ I love working with our Sales Rep, Amy Miller, and Inside Account Rep, Blake Trimpe, on our upcoming tournament awards. They are both very helpful, and the awards help to make our events a success!

Mark Stevens, PGA Golf Professional
Meadowbrook C.C.

WOOD AWARD COLLECTION

Create truly memorable awards by adding color to our wood collection. Featuring an array of shapes, sizes, and colors, each piece is made from acacia wood and finished with a stain to highlight the natural beauty and unique grain of the wood. Every piece serves as the perfect canvas for full-color logos, course maps, customized awards, and so much more!

PRODUCTION TIME

Standard production time is 7-10 business days after an order is received, plus shipping time.

Lead times may be longer during our peak seasons.

All orders require an IN-HANDS DATE in order to be scheduled for production.

Orders without a specified date, or "ASAP", will be scheduled to ship as current order volume permits.

ARTWORK REQUIREMENTS

There is NO LOGO SETUP CHARGE for artwork submitted under VECTOR ART GUIDELINES

Vector (adobe illustrator (ai), eps or vector pdf)

- Used for logos, text, and illustrations
- Can be scaled to any size without distortion
- Remains sharp at any resolution
- Free logo setup
- ColorMark files should indicate artwork and copy colors in file

A vector file is used for the etching process.

***Does not include light etch stencil set-up**

PROP 65 WARNING

Consuming foods or beverages that have been kept or served in leaded crystal products or handling products made of leaded crystal will expose you to lead – a chemical known to the state of California to cause birth defects or other reproductive harm.

COPYRIGHT

No part of this catalog may be reproduced or utilized in any form or by any means, electronic or mechanical, without the prior written permission of Sterling Cut Glass Company, Inc. Fairway™ and Fore™ products represent registered trademarks of Sterling Cut Glass.

GUARANTEE

Sterling Cut Glass guarantees all workmanship to be first quality. Because most of our offerings are hand crafted, it is natural for small air bubbles, chill marks, flow lines or slight surface irregularities to appear. These unique variations are not considered defects. We make every effort to select pieces which demonstrate the finest representation of the craft and to minimize any appearance of these characteristics in or around the etching area. Returns cannot be accepted without prior written authorization.

PGA TOUR AND LPGA® LICENSING

As an official licensee of the PGA TOUR, and LPGA®, Sterling Cut Glass is able to offer qualified customers the use of these logos and those of their affiliated events on most pieces in this catalog. Please call for details.

TRADEMARK

Liability for correct use of a trademark, crest or logo rests with the customer. The logos shown in this catalog represent orders from our customers and are used for illustration purposes only. These logos are the exclusive property of the respective institutions.

Prices in this catalog are effective through 10/31/2026; subject to extension or change without notice.

DECORATION TECHNIQUES

DEEP ETCH

Deep etch is our highest caliber etching technique, providing the ultimate appearance in etched crystal. Your crest or logo is crisply cut, rendering a detailed and permanent dimensional image.

Please note: Etching will appear deeper in bold open areas of a logo and less deep in fine detailed areas such as copy.

REVERSE ETCHING

This deep etch technique "reverses out" your logo or artwork on request so that more of the frosted area is present, creating a luxurious look and finish. Contact customer service for details.

LIGHT ETCH

Light etch is a delicate but permanent surface etch. As illustrated, the light etch technique does necessitate small breaks in any enclosed letter or area. When budgetary concerns are paramount, light etching provides a quality, yet economical solution.

Only club crests and logos as well as event name and year may be light etched. Award copy is not available in light etch. The per item minimum for light etch is 72 pieces.

COLORMARK

ColorMark is a durable UV printing process that allows for printing on almost any flat object or surface, which lends itself well to glass, crystal and metal finishes. Printing with UV allows for any logo or copy to be printed at high resolution without limitations or alterations, producing unique and colorful awards and gifts. Products are not dishwasher safe. Clean with ammonia-free cleaner using a soft lint-free cloth.

ENGRAVING

Diamond engraving uses a non-rotating tool with a cone-shaped diamond tip, which is dragged with pressure through metal, leaving a beautiful impression. Diamond-drag creates quality engraving that compares to hand engraving. The width of stroke is constant and does not vary in depth.

Diamond-drag is recommended for soft metals such as silver, copper, aluminum and nickel.

LASER ENGRAVING - WOOD

Laser engraving on wood creates a digital "burned" image from a directed laser beam, which vaporizes the substrate material. The resulting image is detailed, permanent and indelible.

LASER ENGRAVING - LEATHERETTE

Laser engraving on leatherette burns through the top layer of the material to leave behind a logo in one of the following colors: silver, gold or black. The resulting detailed image is permanent.

ENGRAVING

LASER ENGRAVING;
COATED STAINLESS

LASER ENGRAVING; WOOD

LASER ENGRAVING;
LEATHERETTE

ANTIQUED BRASS

Antiqued brass products are brass-plated with a layer of antique finish and lacquer-sealed. This durable finish is tarnish-resistant. To clean, gently buff the surface with a soft cloth.

ACACIA WOOD

Acacia wood products are handcrafted from acacia wood, a sustainable hardwood grown and replanted in Thailand. Food safe. Hand clean with a damp cloth.

BAMBOO WOOD

Bamboo wood products are handcrafted from bamboo, a durable stalk fiber sustainably harvested from China. Food safe. Hand wash in soap and warm water. Towel dry or air dry on edge.

BLACK NICKEL-PLATED

Black nickel-plated products are genuine nickel, plated over brass. This durable finish is highly tarnish resistant. To clean, gently buff the surface with a soft cotton cloth.

CASED CRYSTAL

A unique artistic technique where clear crystal is permanently encased in a translucent layer of richly colored crystal.

COPPER-PLATED

Copper-plated products are genuine copper, plated over brass. This durable finish is tarnish resistant. To clean, gently buff the surface with a soft cotton cloth.

CRYSTAL CARE INSTRUCTIONS

Due to the delicate nature of glass and crystal, hand washing is recommended. Dry with a lint-free cloth to prevent scratching. To avoid breakage, do not expose glass or crystal to extreme temperatures or to abrupt temperature changes.

GLASS

The process of glass-making has remained essentially the same since ancient times. Most glass is a mixture of silica, obtained from beds of fine sand or from pulverized sandstone, an alkali to lower the melting point, usually a form of soda or potash for finer glass, lime as a stabilizer and cullet (waste glass to assist in melting the mixture).

The materials are fused at high temperatures in seasoned kilns, boiled down, skimmed, and cooled several hundreds of degrees. The molten glass is ladled or poured into molds and pressed or blown (sometimes into molds). The shaped glass is annealed to relieve stresses caused by manipulation, then is slowly cooled.

LEAD CRYSTAL

The addition of lead to the glass-making process yields a product with increased luster, clarity and weight. It is also a slightly softer material than glass, which lends itself well to hand cutting and polishing. Leaded crystal varies in lead composition, but to be considered full lead crystal, the lead content must be 24% or higher. The higher the lead content, the more sparkle is achieved, but more skill is required to form a shape at the blowing stage.

LEATHERETTE

Our leatherette collection features soft faux leather products with distinctive colors revealed beneath the surface when engraved for maximum logo presentation.

NICKEL-PLATED

Nickel-plated products are genuine nickel, plated over brass. This durable finish is highly tarnish resistant. To clean, gently buff the surface with a soft cotton cloth.

NON-LEAD CRYSTAL/CRYSTALLINE

Non-lead crystal is glass with a high content of potash, yielding weight, clarity and sparkle without adding lead content.

OPTICAL CRYSTAL

Optical crystal is among the finest of all crystals available. With no lead content, it is clarified to a 100% optically clear state by the addition of barium, which results in a perfectly flawless clear glass that shines brightly under any light source.

Optical crystal is manufactured in large thick sheets, and while still molten, is subjected to tremendous pressure to insure no bubbles, flow lines or other distortion. Optical crystal is 100% lead free and extremely hard.

RUBBER WOOD

Rubberwood is a light-colored, medium-density tropical hardwood from the Pará rubber tree. Food safe. Hand clean with mild dish soap and warm water. Dry with a clean cloth.

SAND CAST ALUMINUM

Sterling's aluminum products are food safe. Each piece is sand cast and polished from a metal alloy consisting mostly of aluminum. Slight variations in finish and surface texture are the result of this handblown process, and are considered intrinsic to their unique design. The acids in certain foods may cause discoloration. A light coating of vegetable oil prior to use can help prevent this. If polishing or extra cleaning becomes necessary, apply a non-abrasive metal polish and gently buff with a soft cotton cloth.

SILVER-PLATED

Silver-plated products are genuine silver, plated over brass. Silver-plated products are all lead-free and food safe. All silver will tarnish over time, particularly in humid conditions. If polishing is necessary, use a silver polishing compound and gently buff the surface with a soft cotton cloth so as not to erode or scratch plating.

STARFIRE CRYSTAL

Starfire crystal is a lead-free, low iron product that presents high clarity resembling that of optical crystal, but at lower cost. Highly polished, this material produces a bright white sparkle and is therefore sometimes referred to as "white glass."
