RED ARROW TESTIMONIALS

LPGA/PGA

MARVOL BARNARD

National President, LPGA Professional

I am so excited about Red Arrow Markers! I was recently able to provide the markers to the clients of my annual Two Day Golf School, and they LOVED it. I loved it. Lining up a putt becomes a "no-brainer" as the students used the arrow to point their target. My students were making putts from everywhere! I've taught many schools and classes, have used many ball markers in my own game, and have truly never been more impressed with a perfect little tool as this. As an instructor, I see it as a tremendous training aid, and as a player, it's a great piece of equipment to help me lower my putting scores. This is a wonderful new product for teachers and players alike.

PGA Master Professional

RALPH LANDRUM

Golf Channel Academy Instructor Guest

As a PGA Master Professional and former PGA Tour Member I understand the easiest and fastest way to lower one's golf scores is to putt better. Getting the ball started online is a paramount to making putts. Proper alignment is the key to getting the ball started on the intended line. I have used rulers, chalk lines, mirrors, boards, etc. for both myself and my students to help us with our putting alignment. The Red Arrow Marker is as good a "tool" as I have seen to help someone improve their putting alignment. The first time I used the Red Arrow Marker, my confidence increased due to my belief I am properly aligned over the putt. Thanks to Red Arrow Markers for making the game more enjoyable for me and my students!

PGA TOUR PLAYER RUSSELL KNOX
