

Powerful Affirmations

Jothi Ramesh - Intuitive Life Coach

www.jothi-ramesh.coach

This world is my projection

I can alter the world with my
intentions

I'm raising my level of
awareness

I'm not a physical body. I'm a
cumulative vibration of all atoms in
the cosmos

I allow my God / Guru /
Forefathers to take over my
physical, mental and vital planes

I'm capable of reaching both the
extremes but I prefer to tread
upon midway always

Once I commit myself nothing
can stop me in my path

Obstacles are the path too

Love, Peace and Bliss are my
birthrights. The more I share,
they increase in multiple folds

In this ocean of endless dreams,
I'm blessed to be awakened

I'm attracting a worthwhile vision
for my life journey

The greatest mantra is my silence

All mantras obtain power from
silence and return to silence

I'm neither a male nor a female.
I'm Infinite, I'm Birthless,
I'm Deathless. I'm the Source

I won't try to fix or change anything. I will simply flow like a river full of life force

I'm neither inferior nor superior

I'm that I'm

Awareness is the razor-sharp
tool which I use to dissect the
present moment

I acknowledge the fact that Anger,
Fear, Sex, Jealousy, Loneliness,
Pride and Pain are borrowing
energy from my life force. Once I
am present to it, they will merge
into my life force

I'm master of all my cells

I'm filled with the infinite energy
of the Grace

I'm full of light

The light in the Stars, Sun, Moon
and Me is the same

I'm born with enormous abilities

I can create, maintain and
destroy the whole cosmos

I'm neither Human nor God.
I'm awakened

With my word, the whole world
restores infinite energy

My mother and father are the
sources of my life

I'm above Nature and Nurture

In my pure presence, the
cosmos borrows light from me

I'm mother and father of all living
and non-living things

Cosmos is nothing but a
reflection of myself

My whole body reverberates the
Universal mantra, when I'm
awakened

With the utterance of my words,
the whole Universe will manifest
that in an instance

I'm above all concepts,
notations, meanings, languages.
I'm just pure awareness

I drop all the limitations of any
sort right now, right here which I
collected in all my lifetimes

Now I'm brimming with pure
awareness

When things become difficult, I
close my eyes and perceive the
universe with my awareness

Time and Space are my
servants

My Guru's blessing is enough for
everything in this life and many
lifetimes

When I bow, I bow to myself.
Since there is only one in this
whole cosmos

Time and Space are illusions,
they lose their power with my
awakened spirit

I do everything effortlessly for I
know that I'm not the doer.
I'm the watcher

I'm part of the cosmos, without
me, the cosmos will collapse

I'm psychic when I realized that
there are no other

I absorb selectively

I'm aware that everything is interconnected. Losing integrity in one plane will result in loss of whole and complete

My blood is filled with Divine's
infinite Grace

I heal myself effortlessly

My spine is the antenna to
receive infinite Grace

My Guardian Angel always
protects me

With my third eye, I perceive the
Universe as it is. Nothing more
nothing less

I'm just an instrument

Let the Divine's light dispel all
the darkness and boost my
immunity to a record high

I drop my memory and
imagination to allow the life force
to take over me

I live in utter presence always

Anger and Fear lose power
when I witness them

No negativity can touch me

Infinite Grace is protecting me
from all evil eyes

Breathe in I live totally, Breathe
out I die completely dropping all
the unnecessary accumulated
memories

I'm witnessing both life and
death in every breathe cycle

Memory and Imagination are great tools not having a life of their own. I manage them like a master.

**With Divine's light, I cleanse all
the cells of mine**

I have the power to design my
life

I take control of my life

Destiny always consults with me
before proceeding

My search for perfect partner
ends with me

I honour my words in everything

I practise unconditional love in
all my relationships

I give and receive love to make it
rotate in all my relationships

I bloom every day like a flower
afresh with full of vitality

I practice Peace, Patience, Love
and Joy in all relationships

I'm evolving continuously
moving towards
Cosmic Consciousness

I'm living an extraordinary life
without any excuses

I will rise like a phoenix bird from
failures

With my presence, the whole
cosmos feels the warmth

All I have to do is to align with
the flow of life force

If needed I will pierce all my
grave fears to find my life's
purpose

I transmute my sexual energy
into kundalini awakening energy

**My kundalini energy effortlessly
flows from root chakra to crown**

I shower my Love and Grace to
this Cosmos

I'm having the key to unlock all
my potentials

Every moment, every cell of
mine is getting rejuvenated

I choose my weight, height,
character first before
transforming them

I have no guilt or resentment

I squeeze out all the juice of my
life every moment

I'm full of Mojo

**My Guardian Angel fulfills all my
wishes**

When I want something, I simply raise my vibration to that level. It will automatically get attracted towards me

My Ida Nadi and Pingala Nadi
intertwine that nobody can
separate them and say that one
is better than the other

I put my focus on Sushumna Nadi

I have access to all the powers
of the Universe

I will do my best and the Grace
will do its part

I'm the source of all the bliss of
my life

I always live a life full of
possibilities

At my command, the whole
cosmos rearranges everything to
fulfill it

When I visualize vividly anything
will manifest in an instance

I allow the force to choose my
words carefully

I acknowledge that each word
contains a seed of immense
power

I speak to the purpose, if not I
will remain silent

I have a reservoir of immense
energy in each of my cells

My energy lasts long forever

I'm the dance behind the
masculine and feminine
energies of this Cosmos

I can influence my environment
not vice versa

The future I'm living in the
present determines the quality of
my life
