

## POA Ponds Committee *'Pond Views'*

May 11, 2020

### **2020 St. James Native Pond Plant Sale Starts Today!**

For the second year in a row the POA Ponds Committee is having a plant sale focusing on native wetland plants and shrubs suitable for pond banks. There are 9 perennials and 4 shrubs available for sale through Lumber River Native Plants. These native plants are natural buffers for pond bank erosion and protection from harmful chemicals in fertilizers. Many of our sale plants attract butterflies, hummingbirds, and pollinators. Water quality, pond health and beautification – that is what this plant sale is all about.

[Click here](#) for all your plant sale information. Our Plant Sale 2020 website has a diagram showing “Where to Plant: The Three Planting Zones.” Mouse over the “2020 Native Pond Plant Sale” to see the 13 plant species. Click on one to get complete information about that plant from either the NC State Extension or the U.S. Dept. of Agriculture (USDA.) You will also see “Where to Plant” information for each species. Mouse over one of the plant species and click on the “Feedback.” You will see comments from residents who purchased it last year and responded to our plant sale survey later in the year. There is a “Questions & Comments” section carried over from last year. There is also the “2020 Order Form.” You will need to print this out to order your plants.

The Woodlands Circle Pond showcases a variety of native buffer zone plants.

Once you have decided how many and what species you need, fill out and tabulate your total cost. Follow the instructions on the Order Form by enclosing it with a check for the total amount made out to Lumber River Native Plants. Either mail your Order Form and check to the

as instructed. The order form also contains your pickup information.  
Saturday, June 20 – 1:30 to 3:30 PM at the Community Center parking lot.

Please contact the Ponds Committee with questions.
