

Arrowheads

August 24th 2023

We have received the arrowheads! It seems everyone has an idea for an assignment like this, but Dutch warned not to take offence if you are not asked to be directly involved. This is not an assignment that everyone will be able to be involved in.

I wanted to lay out what the Lord showed us as we have been praying and then discussed what God gave us.

Here are the important points from our conversation.

In the Give Him 15 messages, and emails, about the arrowheads there were key points I am looking at as a filter.

One, they are called "Back to the Future Arrowheads"

Second, they are a prophetic symbol meaning "a rediscovery of lost or abandoned goals"

Do the locations being proposed meet these criteria and is there confirmation by Holy Spirit. This eliminated most of what had been suggested. The premise behind Back to the Future is that things from the past either are altered or preserved by the actions taken.

As for "lost or abandoned goals"

Over the last several years I have asked leaders around our state familiar with Dutch and Chucks ministry if the things prayed and prophesied in 2003 over Nebraska were ever fulfilled.

Such as

Nebraska would be used to "tear down false ideology of humanism, intellectualism, and the soul man" and to "bring supply - food, funds, and revelation for times to come"

"And the Lord would say, "If you will meet for 21 days, 24 hours of prayer from church to church, meeting throughout this state, that structure that is trying to overshadow this nation will be pushed back. Then I would say to you, if you will

begin to meet one night and worship in the state, I will begin to cause the atmosphere of this state to change, I say meet and praise, clap and declare, meet and draw near to Me intimately, but meet and make the right declarations that what I long to do in this land will be done. I say come together, clap, shout, and decree that I am going to change the course of this land. And from Nebraska it will be changed (Prophesied by Chuck D. Pierce)
(these two statements are taken from the book "Releasing the prophetic destiny of a nation")

I am sure there are so many other lost or abandoned goals that the Lord has given that he will reveal in the last days of anchoring the state and planting the Back to the Future Arrowheads.

If you are receiving the arrowheads could you please

1. Write or audio record the prayers and declarations and a summary of the history associated with the site where they are being planted. I have been working on compiling as much of the history (civic and prophetic) as possible.
2. Take photos or video.

Here is the prayer from the National Leaders in Cape Henry I would ask that we include this in each of our prayer and declarations as we plant these arrowheads.

This past Sunday, a small team and I (Dutch) took the 300 arrowheads to Cape Henry, the place of America's defining covenant with God. We also took a precious bottle of oil, prayed over by hundreds of intercessors and leaders in Alaska, many of them Native Americans, dedicating it to the Lord's purpose for our nation. They decreed Isaiah 60:18 over this oil: "Violence will not be heard again, and your land, nor devastation or destruction within your borders; but you will call your walls salvation, and your gates praise."

Back to the future.

"Dutch, it was for such time as this that you are to distribute the 'back to the future' arrowheads." As I looked at him questioningly, he added, "The 300 arrowheads that were sent to you."

It was INCREDIBLE to me that the arrowheads were referred to in a dream! And also that they were referenced in this way: "back to the future" arrowheads. As I sought the Lord, He gave me specific instructions.

One of our team members, Terri Brown from Colorado, sent me the following insight just before we began the trip:

"I found it interesting that the arrowheads were discovered while prayer walking. I asked the Lord what an arrowhead symbolizes, and felt led to look it up in Barbie Breathitt's dictionary of prophetic symbols. The meaning was not new to me, but then I was shocked to see an entry for "**Arrowhead, found.**" This meaning read, "a rediscovery of lost or abandoned goals that were never achieved."(1)

"In our case, the 'goal' is fulfilling the destiny of our nation, and it is being 'rediscovered' as we pray."

Update on September 1, 2023

Since we have been asked not to give the locations out I will just give general locations and a short explanation as to why that was chosen.

1. Omaha – first site of government in our state. - Aksarben.
2. Trails – the impact of the trails (Mormon & Oregon)
3. Grand Island – Orphan Trains (trafficking children for sex work) treachery among the tribes at Grand Island. Masonic roots. Business control over the church.
4. Republican River – Nebraska's conflicts around water with neighbors, site of government exterminating buffalo and starving the native tribes
5. Ponca – Chief Standing Bear – interactions of government with first nations
6. Ft. Robinson – Chief Crazy Horse - interactions of government with first nations

There have been years of research done around the issues that each of these arrowheads were able to be planted with very informed prayers and decelerations. At each location the redemptive plan, the lost or abandoned goals of God, were prayed and declared. We are very thankful to all those who have prayed and researched for all these years. It really simplified the site selection. Thank you for your ongoing prayers for our state that we would see all that God has ordained for Nebraska come to pass.
