 GREAT TASTING WATER
 CHEMICAL FREE WATER
 SKIN CARE
 SKIN ISSUES
 SOFTER SKIN
 SOFTER HAIR
 PETS LOVE IT
 CLOTHES WILL LAST LONGER
 PLANTS EXPLODE WITH LIFE
 UP TO A 20-YEAR GUARANTEE

BEST PRICED WATER SYSTEMS

As featured on FOX & FRIENDS this is the most affordable whole house water treatment systems on the planet! Each tank and valve option is custom designed to meet your needs.

VORTECH™ PLATE TECHNOLOGY

Creates a better backwashing and cleaning action of media. Improved lift and mixing action created by Vortech™ plates provide shorter backwashing requirements. Up to 30% less backwash flow rate is required conserving water for your family.

HOW IT WORKS

1. Water entering your home goes through a pre-filter, removing large sediment.
2. The water is then filtered for chlorine and chemicals which can also affect your home's air quality.
3. Water then goes through activated carbon which removes pesticides, copper and herbicides.
4. The water then enters a polishing filtration which removes any remaining particles.

HARD WATER

According to the United States Geology Survey (USGS), "water hardness is based on major-ion chemistry concentrations."
More specifically, the amount of dissolved calcium and magnesium in the water determines its hardness level. The higher the volume of these two minerals, the harder the water. High levels of these elements in water can cause scale to build up and damage your home's pipes along with other fixtures such as showerheads and water heaters.

HEALTH

Signs of hard water on your skin are; dry, flaky or itchy skin. Sebaceous glands produces and distributes a natural oil called sebum, which acts as your skin's protective barrier against dryness. Washing with hard water creates clogged pores and then causes acne, creates atopic eczema, psoriasis, rosacea and other skin issues.

INSTALLATION

Installing a whole house water filtration system could take an experienced plumber 2-4 hours. Typically, it is installed near the water main comes into the home. Your water will be turned off during the installation process.

ABOUT

H2O Water Biz was founded by Dennis and Christina Bynum. Their mission to offer the very best water filtration system around for the money.

As a trusted provider in the industry, we offer a wide range of products and services that are designed to meet your unique needs. With over 45 years of industry experience, our commercially proven products offer guaranteed performance and unmatched value.

We offer FREE ESTIMATES and up to 20-year warranty!
