Our ECO-PRO™ Hybrid Salt Systems utilize the Patented Vortech-Mid-Vortech™ Plate design that creates fluidity of the media beds and extends contaminant removal capacity; which means less regenerations and significant reduction in water use. Saving 30% less water, and up to 30-50% less salt helps save our environment. This makes the ECO-PRO™ series the most Eco-Friendly Whole House Water Softener Conditioner Filtration Systems on the planet.
