

Exciting opportunity for experienced transportation engineers!

Lakeside Engineers is seeking a talented, client-focused transportation engineer to join our diverse, accountable and innovative team of engineering professionals.

You will be welcomed as a valued contributor to our agile, multi-function engineering consultancy based in Southeast Wisconsin. You will have the opportunity to grow and diversify your experience base by engaging in a wide array of transportation engineering assignments for state, county and local government clients. These may include traffic system planning, roadway design and operation, traffic control systems, and safety programs.

You will make practical, real-world application of the tools you have accumulated in your engineer's toolbox to complete assigned tasks within our collegial, team-structured work environment under the supervision of one of our outstanding Senior level engineers.

Who Should Apply?

Minimum requirements for this full-time employment opportunity include:

- Bachelor's degree in Civil Engineering from an accredited college or university
- Successful passage of the FE/EIT exam
- At least three years of professional traffic engineering work experience (can include internship experience)
- Experience working with AutoCAD/Civil3D software

The highly qualified candidate will hold a PE license and be familiar with Wisconsin DOT engineering policies and procedures, including the Facilities Development Manual.

You must demonstrate effective verbal and written communications skills, and the ability to work independently, competently and effectively with minimal supervision. You must also be available to occasionally work outside normal business hours, including some weekends, and be able to travel independently to work sites anywhere within Southeast Wisconsin.

Most importantly, you must buy into Lakeside's corporate vision: *"Honesty, integrity, and trust drive who we are and how we operate. Our client-focused approach provides solutions for today's challenges and preparation for tomorrow's opportunities."*

Lakeside Engineers, LLC is a versatile engineering consulting firm specializing in transportation projects across multiple disciplines. Lakeside's office is located in Wauwatosa, Wisconsin. We offer flexible work schedules, a robust benefits package for full-time employees, a business casual dress code, company-sponsored social events and a friendly, supportive work environment.

Our expert staff of professional engineers, planners, law enforcement professionals, analysts and engineering technicians take the time to ask questions, listen, and fully understand the unique facets of each project.
