

Job Description: Project Engineer

General Description:

A Project Engineer to fill a current design/traffic engineering need. The work in this position includes performing a variety of engineering duties involved with design and traffic engineering, under the direct supervision of a senior engineer. Responsibilities will consist of design using AutoCAD/Civil 3D software. Familiarity with WisDOT policies and procedures and knowledge of the WisDOT FDM will be viewed favorably. Duties may be assigned on a temporary basis as needed to meet the workload of the company. This position is expected to be motivated, assertive, accountable, and hold strong relationship building skills.

Desired Knowledge, Skills and Abilities:

- Knowledge and experience with AutoCAD/Civil 3D, Microstation
- Solid communication, interpersonal and organizational skills. Good command of English grammar and spelling. Ability to engage in formal and informal correspondence.
- Ability to prepare, interpret, and utilize plans, maps, specifications, special provisions, and reports.
- Ability to perform engineering calculations and to prepare engineering reports.
- Ability to use and maintain various engineering and survey tools and equipment.
- Access to reliable transportation.
- Working knowledge of MS Office suite
- Ability to prioritize, handle several projects at a time and be a “self-starter”
- Ability to occasionally work after business hours and/or weekends.
- Strong problem resolution skills
- Ability to work independently and efficiently with limited supervision.
- Ability to physically perform the essential job functions.
- General competencies expected of all employees are as follows: Client Service, Commitment, Communication, Innovation & Continuous Improvement, Professionalism, Versatility, Quality and Teamwork.

Required Experience:

Minimum of 5 years-experience of practical design experience in traffic engineering and/or roadway design.

PE license in Wisconsin

Education:

Bachelor’s Degree in Civil Engineering

Work Status:

Full-time

Travel:

Position requires limited travel.

Lakeside Engineers, LLC is a versatile engineering consulting firm specializing in transportation projects across multiple disciplines. Lakeside’s office is located in Wauwatosa, Wisconsin.
