www.fibergulfind.com

“ FIBER GULF FIBER GLASS INDUSTRIES FZC, UAE based Fiber glass products manufacturer & assembler. Manufacture wide range of specialized polyester products to meet the requirements of various industries in U.A.E, Middle East & African market.

We specialized in supply of high-quality maintenance free & corrosion resistant GRP products to many industries like construction, marine, electrical, automotive & water. Our Prime focus is on designing, manufacture and deliver customized GRP products as per client's requirements. Our strength lies in our capability to manufacture products to meet customer needs.

Any GRP products can be manufactured in our work shop from grp box, kiosk, junction boxes, Meter boxes, protection cover, roof top cover etc. in any special shapes required. Fiber Gulf offers cost effective solutions for all new and existing composite requirements from, design, manufacture, fabrication and installation".

We have enclosures portfolio with a line of heavy-duty GRP (glass reinforced polyester) products. Robust and reliable to meet the needs of the harshest industrial environments, the GRP enclosures are offered in a range of sizes, and boost application flexibility through a wide range of accessories and the possibility of both NC modifications and a host of customization possibilities.

”

Factory Profile:

We are equipped with the state of art production facilities spread over an area of 4,000sq feet in SAIF Zone Sharjah, We will offer innovative, cost effective, pre built solutions that overcome the problems you will encounter with the cost and deployment of conventional methods and material choices. The company is managed by a team of qualified personnel who have extensive experience in this specialised field.

High quality composite material, Glass-Fibre Reinforced Polyester-GRP, is used for the production, which has proven advantages like high strength to weight ratio, versatility and cost effectiveness in long term use.

GRP ENCLOSURE Standard Features

- Non conductive
- High impact, corrosion & temperature resistant
- Suitable for indoor and out door use
- Ingress protection up to IP-65
- Weatherproof & rigid construction
- Lift off type chrome plated brass hinges
- key locks, zinc die cast & chrome plated
- Fire retardant, self extinguishing
- External finish: Plain semi gloss gelcoat finish
- Colour: RAL 7032, 7035, 9010 or other colours on request.
- All hardware of galvanized steel or non-corrosive material

Fiber Gulf Standard Enclosure (Single Door)

Our GRP Standard Enclosures come in RAL 7035nd RAL 7032 & RAL 9010. They provide you with an of ip af to iN GO529 WA also ingress protection of IP 65 to EN 60529. We also provide IP 67 and IP 68 on request.

GRP enclosures are light weight and robust. Their main characteristics are that they are UV resistant and extremely strong with an impact strength similar to that of metal enclosures. As well as this they are non-corrosive which makes them ideal for installation outdoors or in harsh environments.

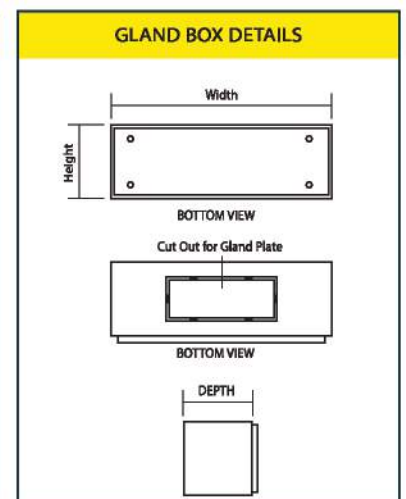

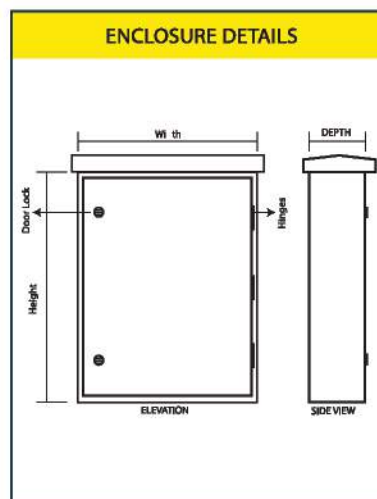

Standard Features:

- Manufactured to the highest possible standards.
- No electrical contact risks
- Non corrosive for use in extremely harsh and demanding environments, offering a long- lifetime.
- Resistant to harsh atmosphcrs.
- Can be used in a large temperature range
- Long life lasting without maintenance.
- The cabinets meets are water and dust proof
- Solid GRP Grab Handles
- Steel or Polyamide Hinges
- Quick- opening Latches
- Standard Classification Emblems
- Choice of UV-Inhibited High Visibility Colors
- Chemical Resistant Construction

Custom Made Enclosure

We can offer of custom enclosures, depending on your type of application and environment. Custom enclosures are designed to fit your specific needs. Many options are available upon your request, Fiber gulf has the capability to manufacture enclosure as per customer wish & design. GF can precisely add cutouts and other modifications, offering a turnkey, single-source experience. Of course, the lead times on custom molding are longer than for a standard product.

Quality, reliability and innovation are a few of the many qualities of Fiber Gulf team are known for. From design to manufacture, our experts work closely with you to fully understand your aims and requirements.

We aim to supply you with the perfect solution, both on time and within budget.

Service Enclosures with Polycarbonate Glass Door

Fuber Gulf enclosures can be manufactured and supplied with transparent polycarbonate glass doors that help in viewing the functionality of Low Voltage Switchgear & Controlgear components. Transparent door pane enclosures can be used in electrical installations in both indoor and outdoor application.

Junction Boxes

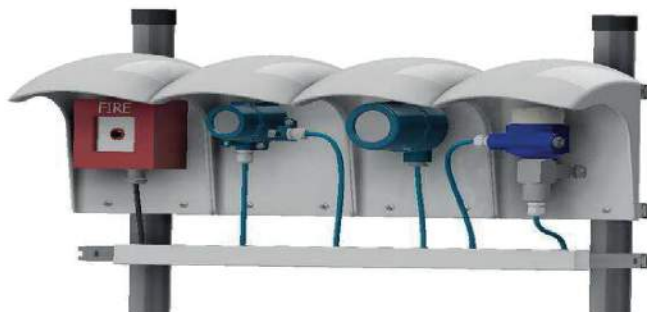

Reinforced Polyester (GRP) Junction Boxes use in both onshore and offshore hazardous locations.

These enclosures are smaller in size and have customization option.

GRP Protection Shades & Covers

Fiber Gulf protective canopies and sunshades made from GRP offer effective protection for your instrumentation. With various designs and sizes, we offer the right solution for every application. By mounting protective covers to your transmitters, you protect your sensitive equipment from environmental influences. The thermally insulating material also ensures that the heat from solar radiation is not transmitted. Due to a variety of brackets, our protective covers and canopies can also be mounted directly on fittings from various manufacturers.

Complete List of Fiber Gulf products are

Uses

- Public distribution of electrical energy
- Industry
- Tertiary sector
- Renewable energies
- Public lighting
- Temporary installations
- Telecommunications

- Electrical Enclosure
- Electrical & Water Meter Enclosure
- Custom made boxes
- Shades & Protection Covers
- Kiosk
- Fire Extinguisher cabinets
- Safety Equipment cabinets
- First Aid cabinets
- Custom made shapes

Optional Features:

- Easy View Acrylic Glass Window with/out shutter
- Can be manufactured in any Colour
- Lockable Latches
- Fire Retardant Construction
- Custom Design shelving
- Stainless Steel Grab Handles
- Custom Classification Emblems
- Three way locking points.
