

- Building repairs
  - Discussed the repairs to the front and back awnings. Need further investigation on permits and WY DOT restrictions to the front awning.
  - A carport was also discussed, again need to investigate permitting, city restrictions and setbacks. To be discussed in greater detail when more information is available.

#### Old Business

- Our attendance at county fair was reported to be of a benefit to the district to reach constituents.
- Discussion was held regarding the need for drill upgrades (i.e. different size, additional drill, etc). A question was raised if the drills are providing "conservation" to our natural resources. General consensus was as long as something other than weeds are growing, it is helping control wind and/or water erosion.
- Soil testing was discussed.

#### Equipment Report

##### A. Reports/Schedules

- Need to determine the level of wear and what components need to be replaced.

##### B. Truck

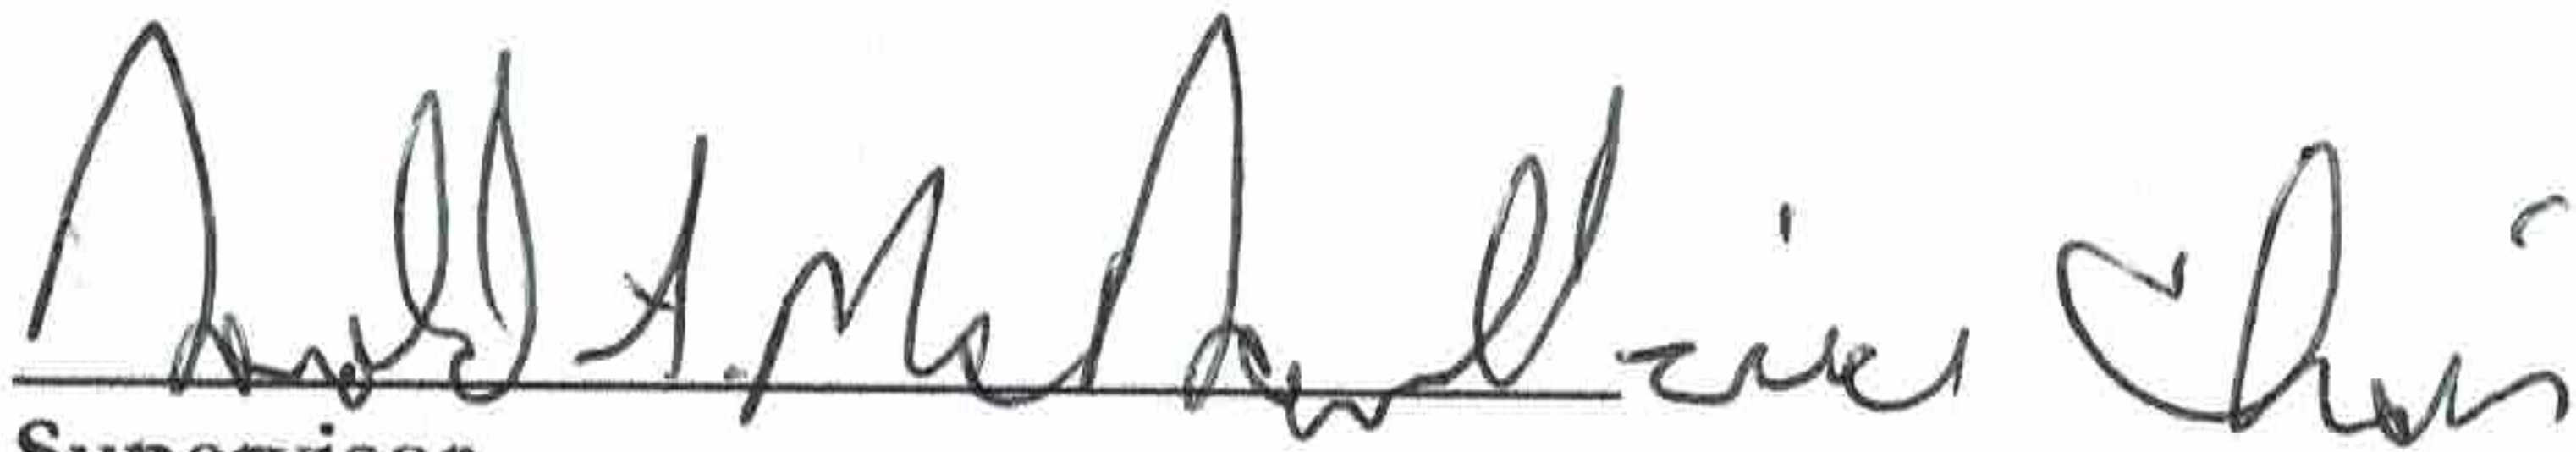

#### Other Reports

##### A. Social Media

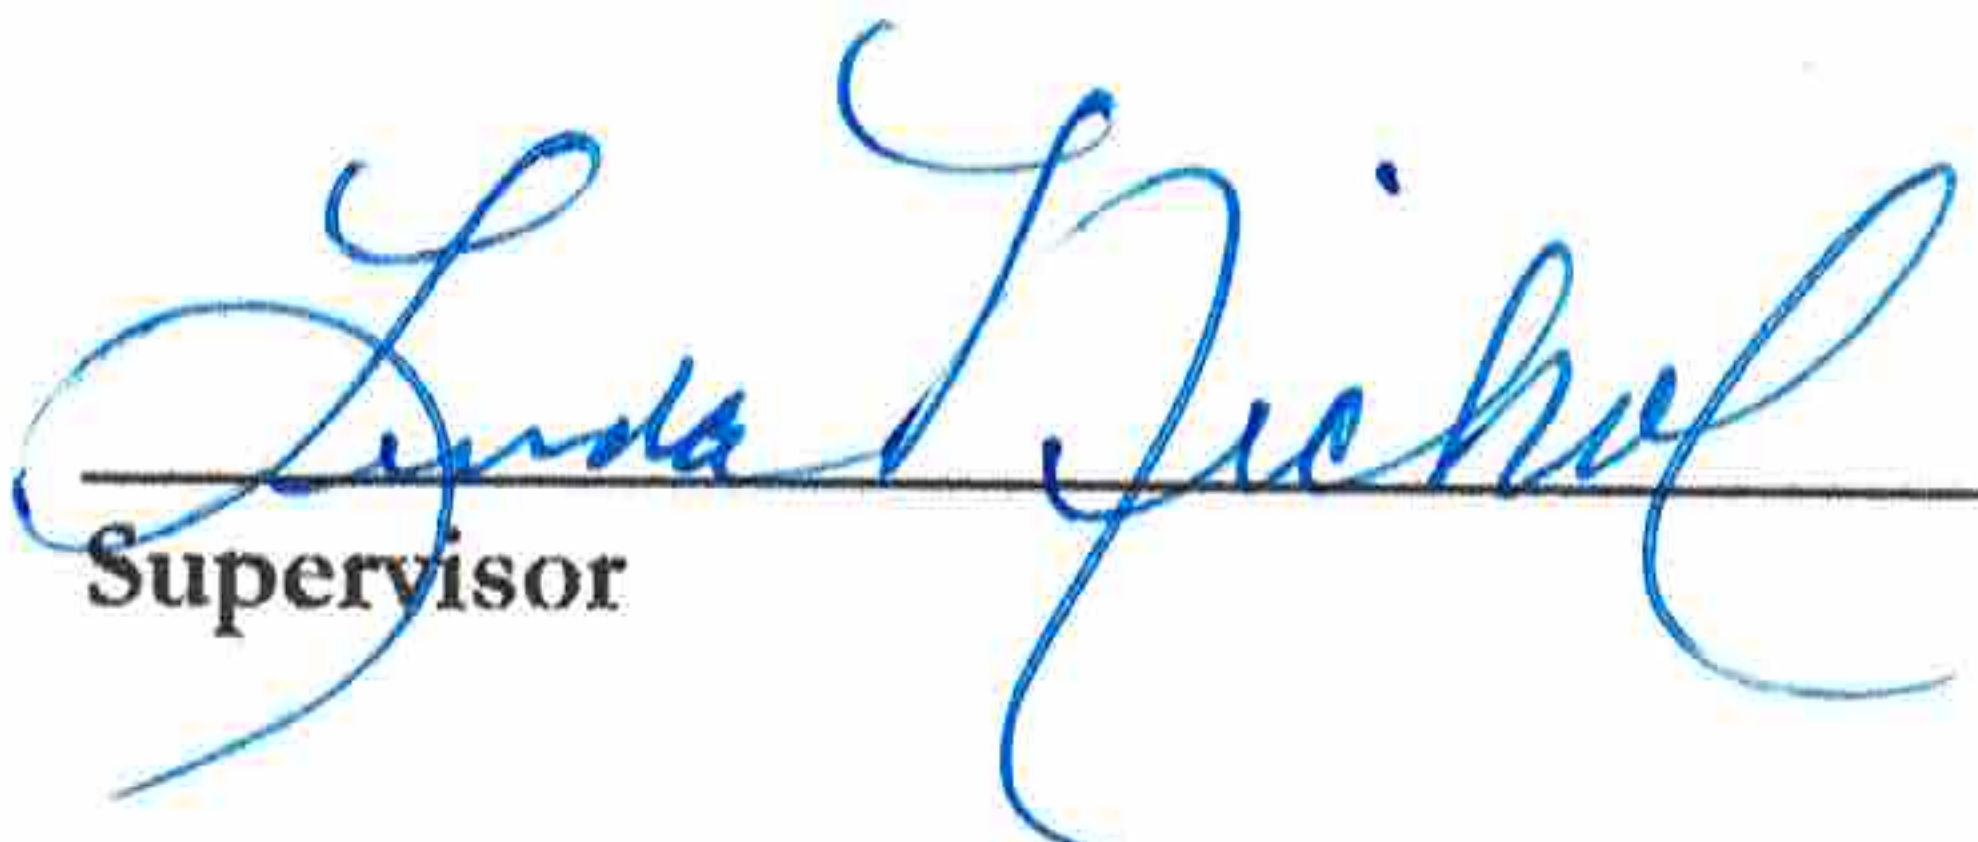

##### B. Correspondence

**Next Board Meeting:** September 10, 2024 at 1:00 PM, at the Lingle Fort Laramie Conservation Office

**Adjourn:** Linda moved to adjourn at 3:48pm, Don seconded, and the motion was carried.
