

**STI  
AWARENESS  
WEEK (APRIL 9 - 15)**

**Cumberland County  
Department of Public Health  
STI Clinic**

Nearly **1 in 5** people in the United States have a sexually transmitted infection (STI).

**STIs** are **NOT** inevitable. They can be prevented and treated.

If you are sexually active, you should make a plan and choose the **prevention steps** that work **best** for you!

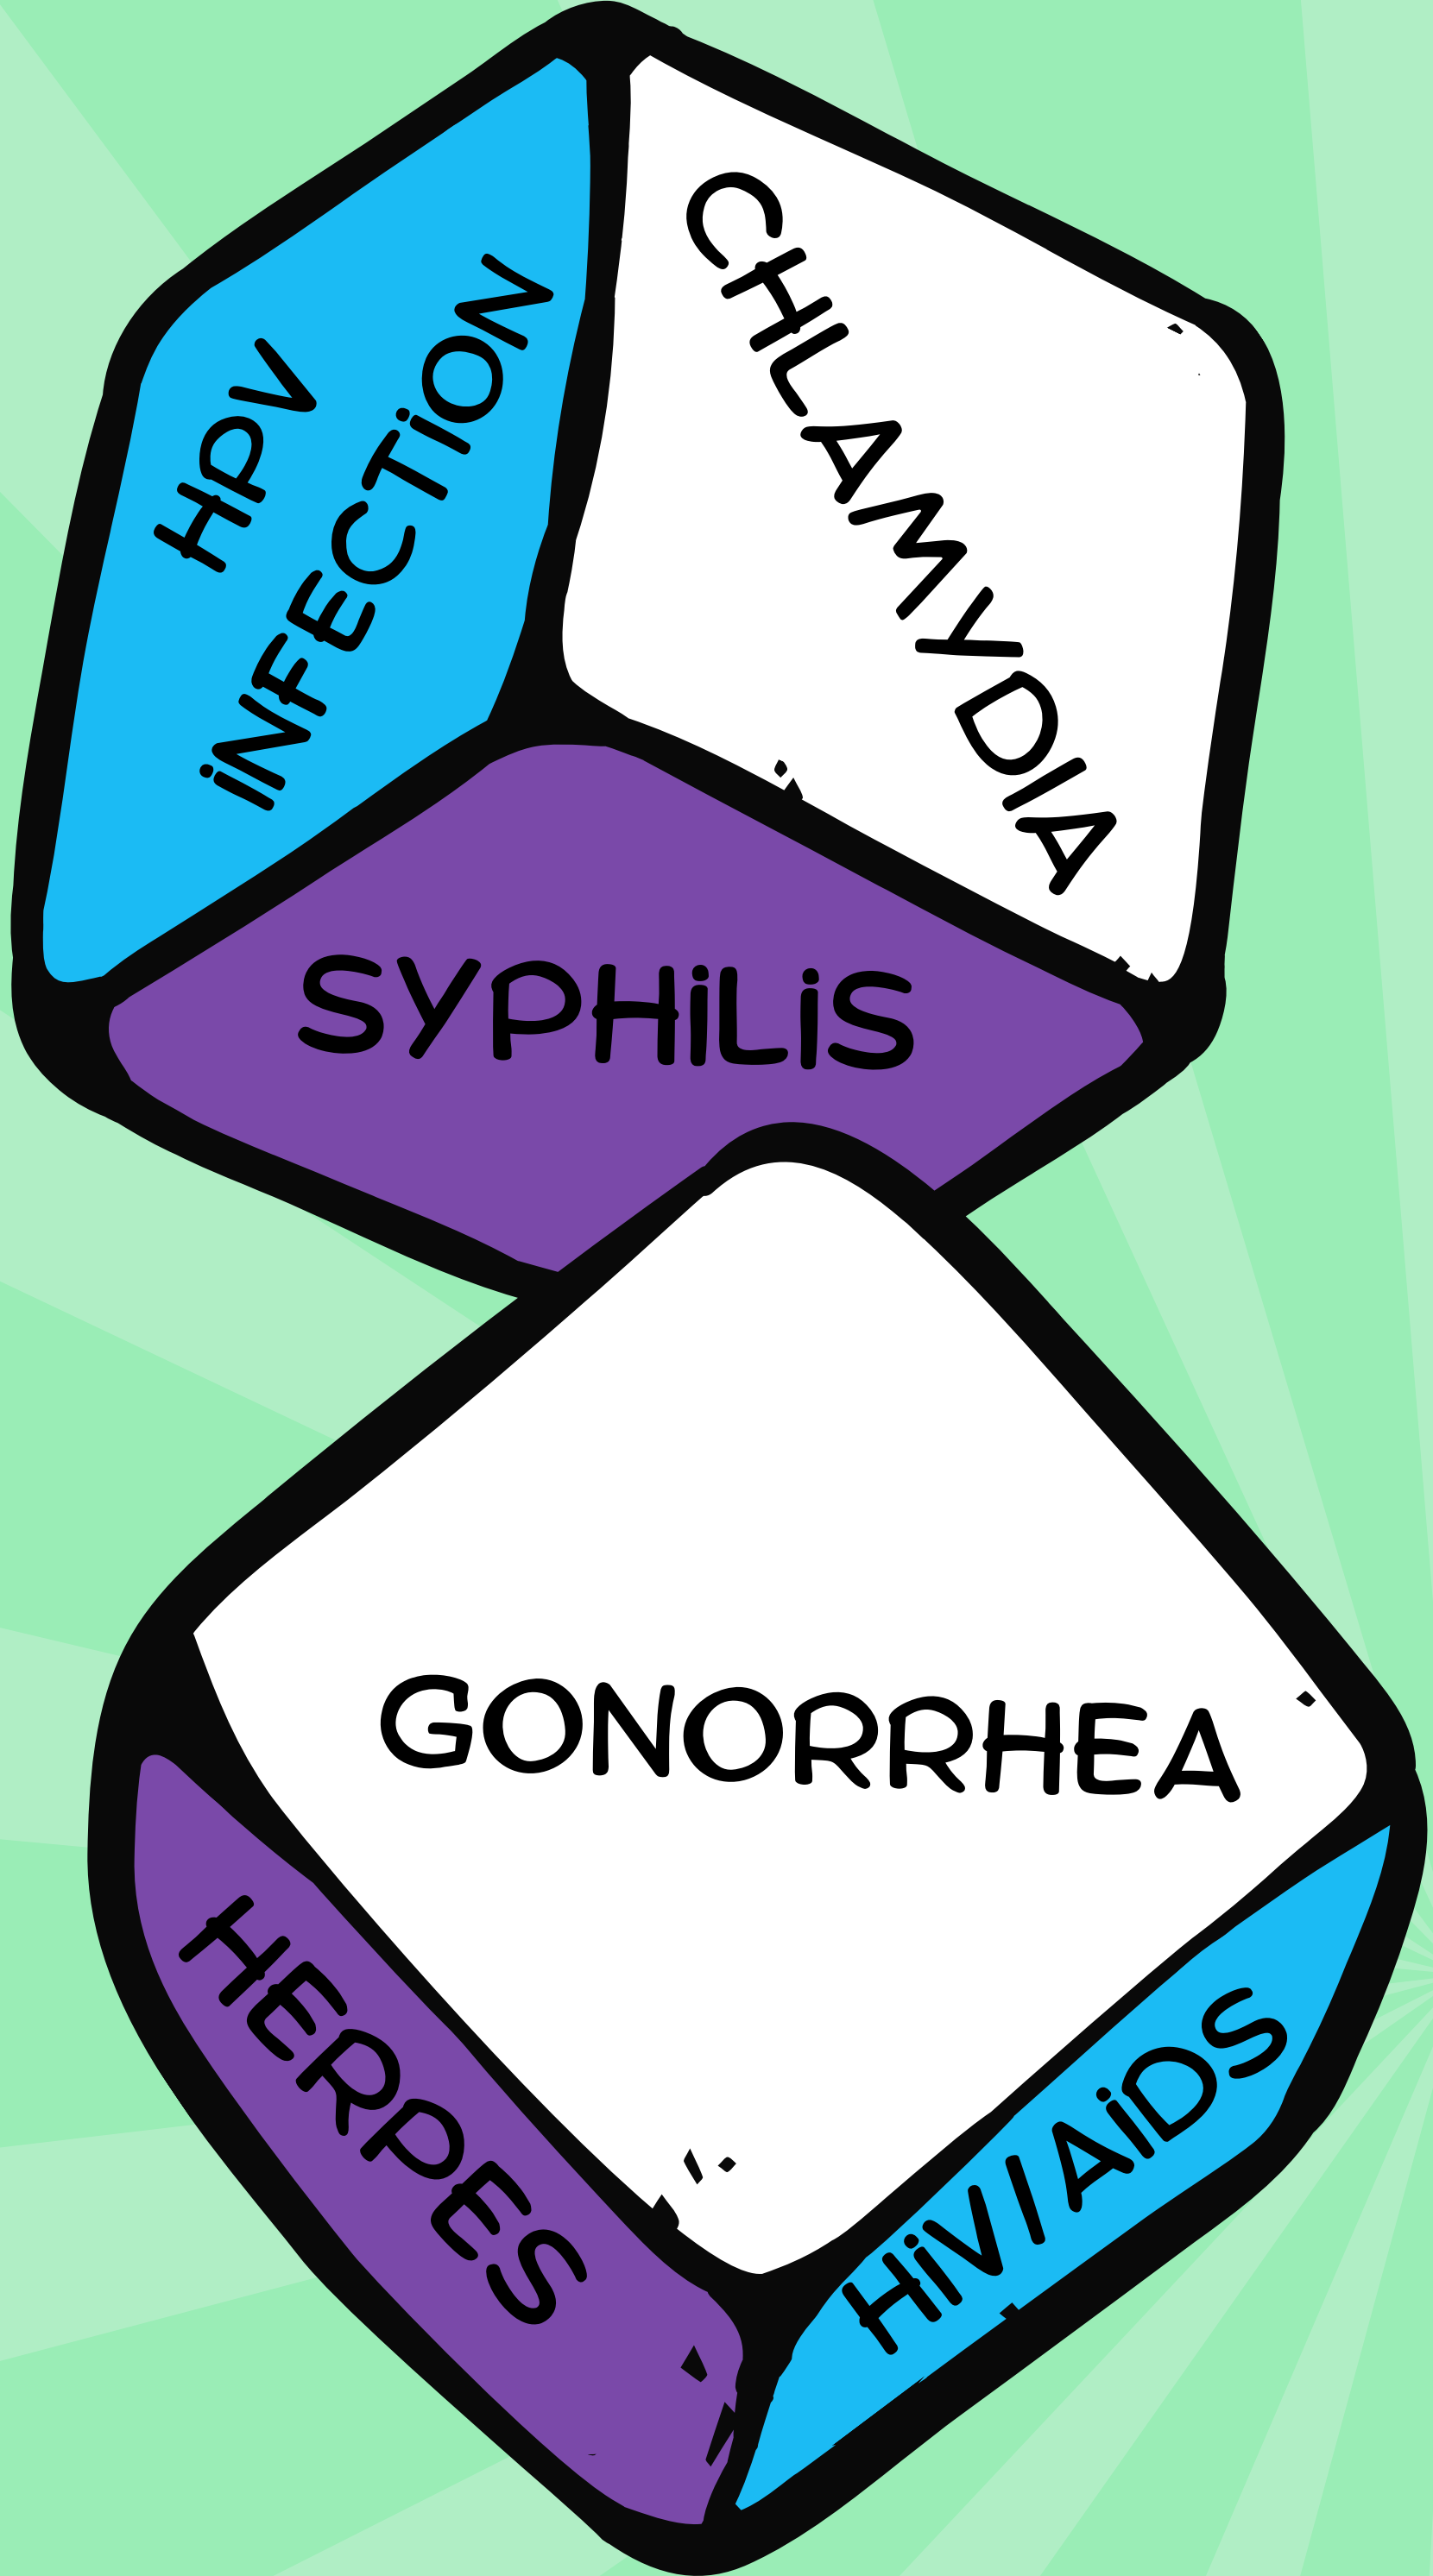

- **Talk** (with your partner about your sexual needs, history, concerns)
- **Test** (before you sexually engage with a new partner)
- **Treat** (for any STIs in a timely manner) for **STIs**.

The Cumberland County Department of Public Health's **STI Clinic** has you covered with **free testing, treatment, and education.**

#STDWEEK

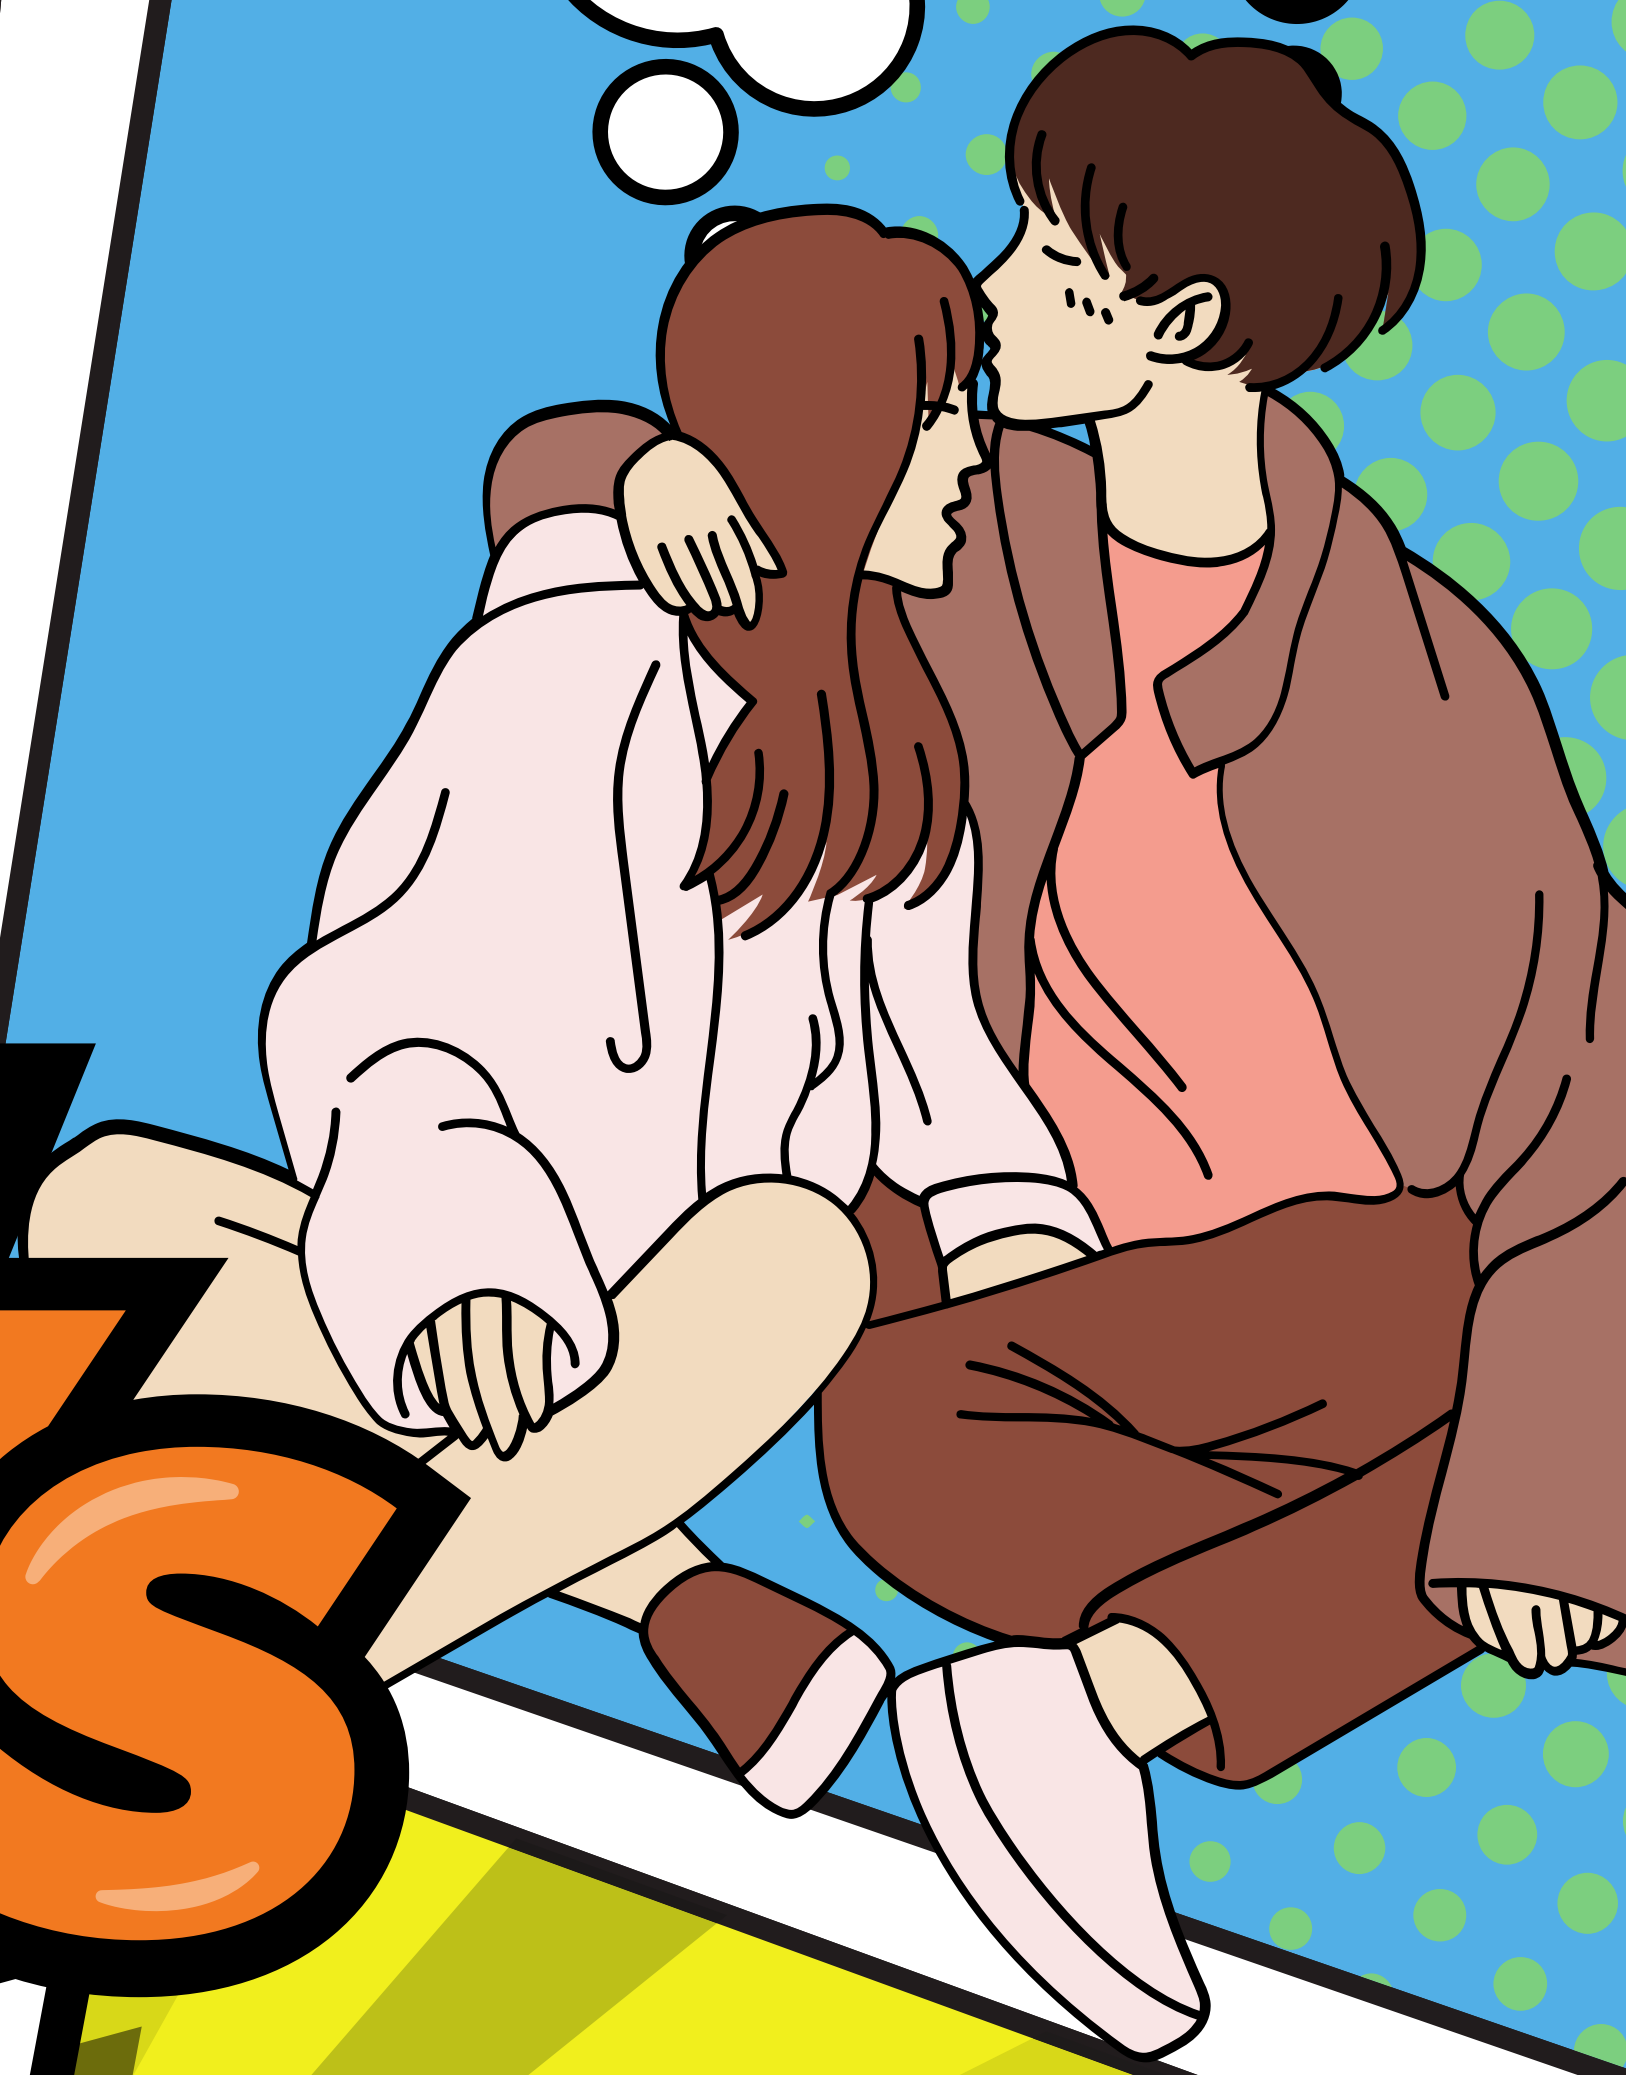

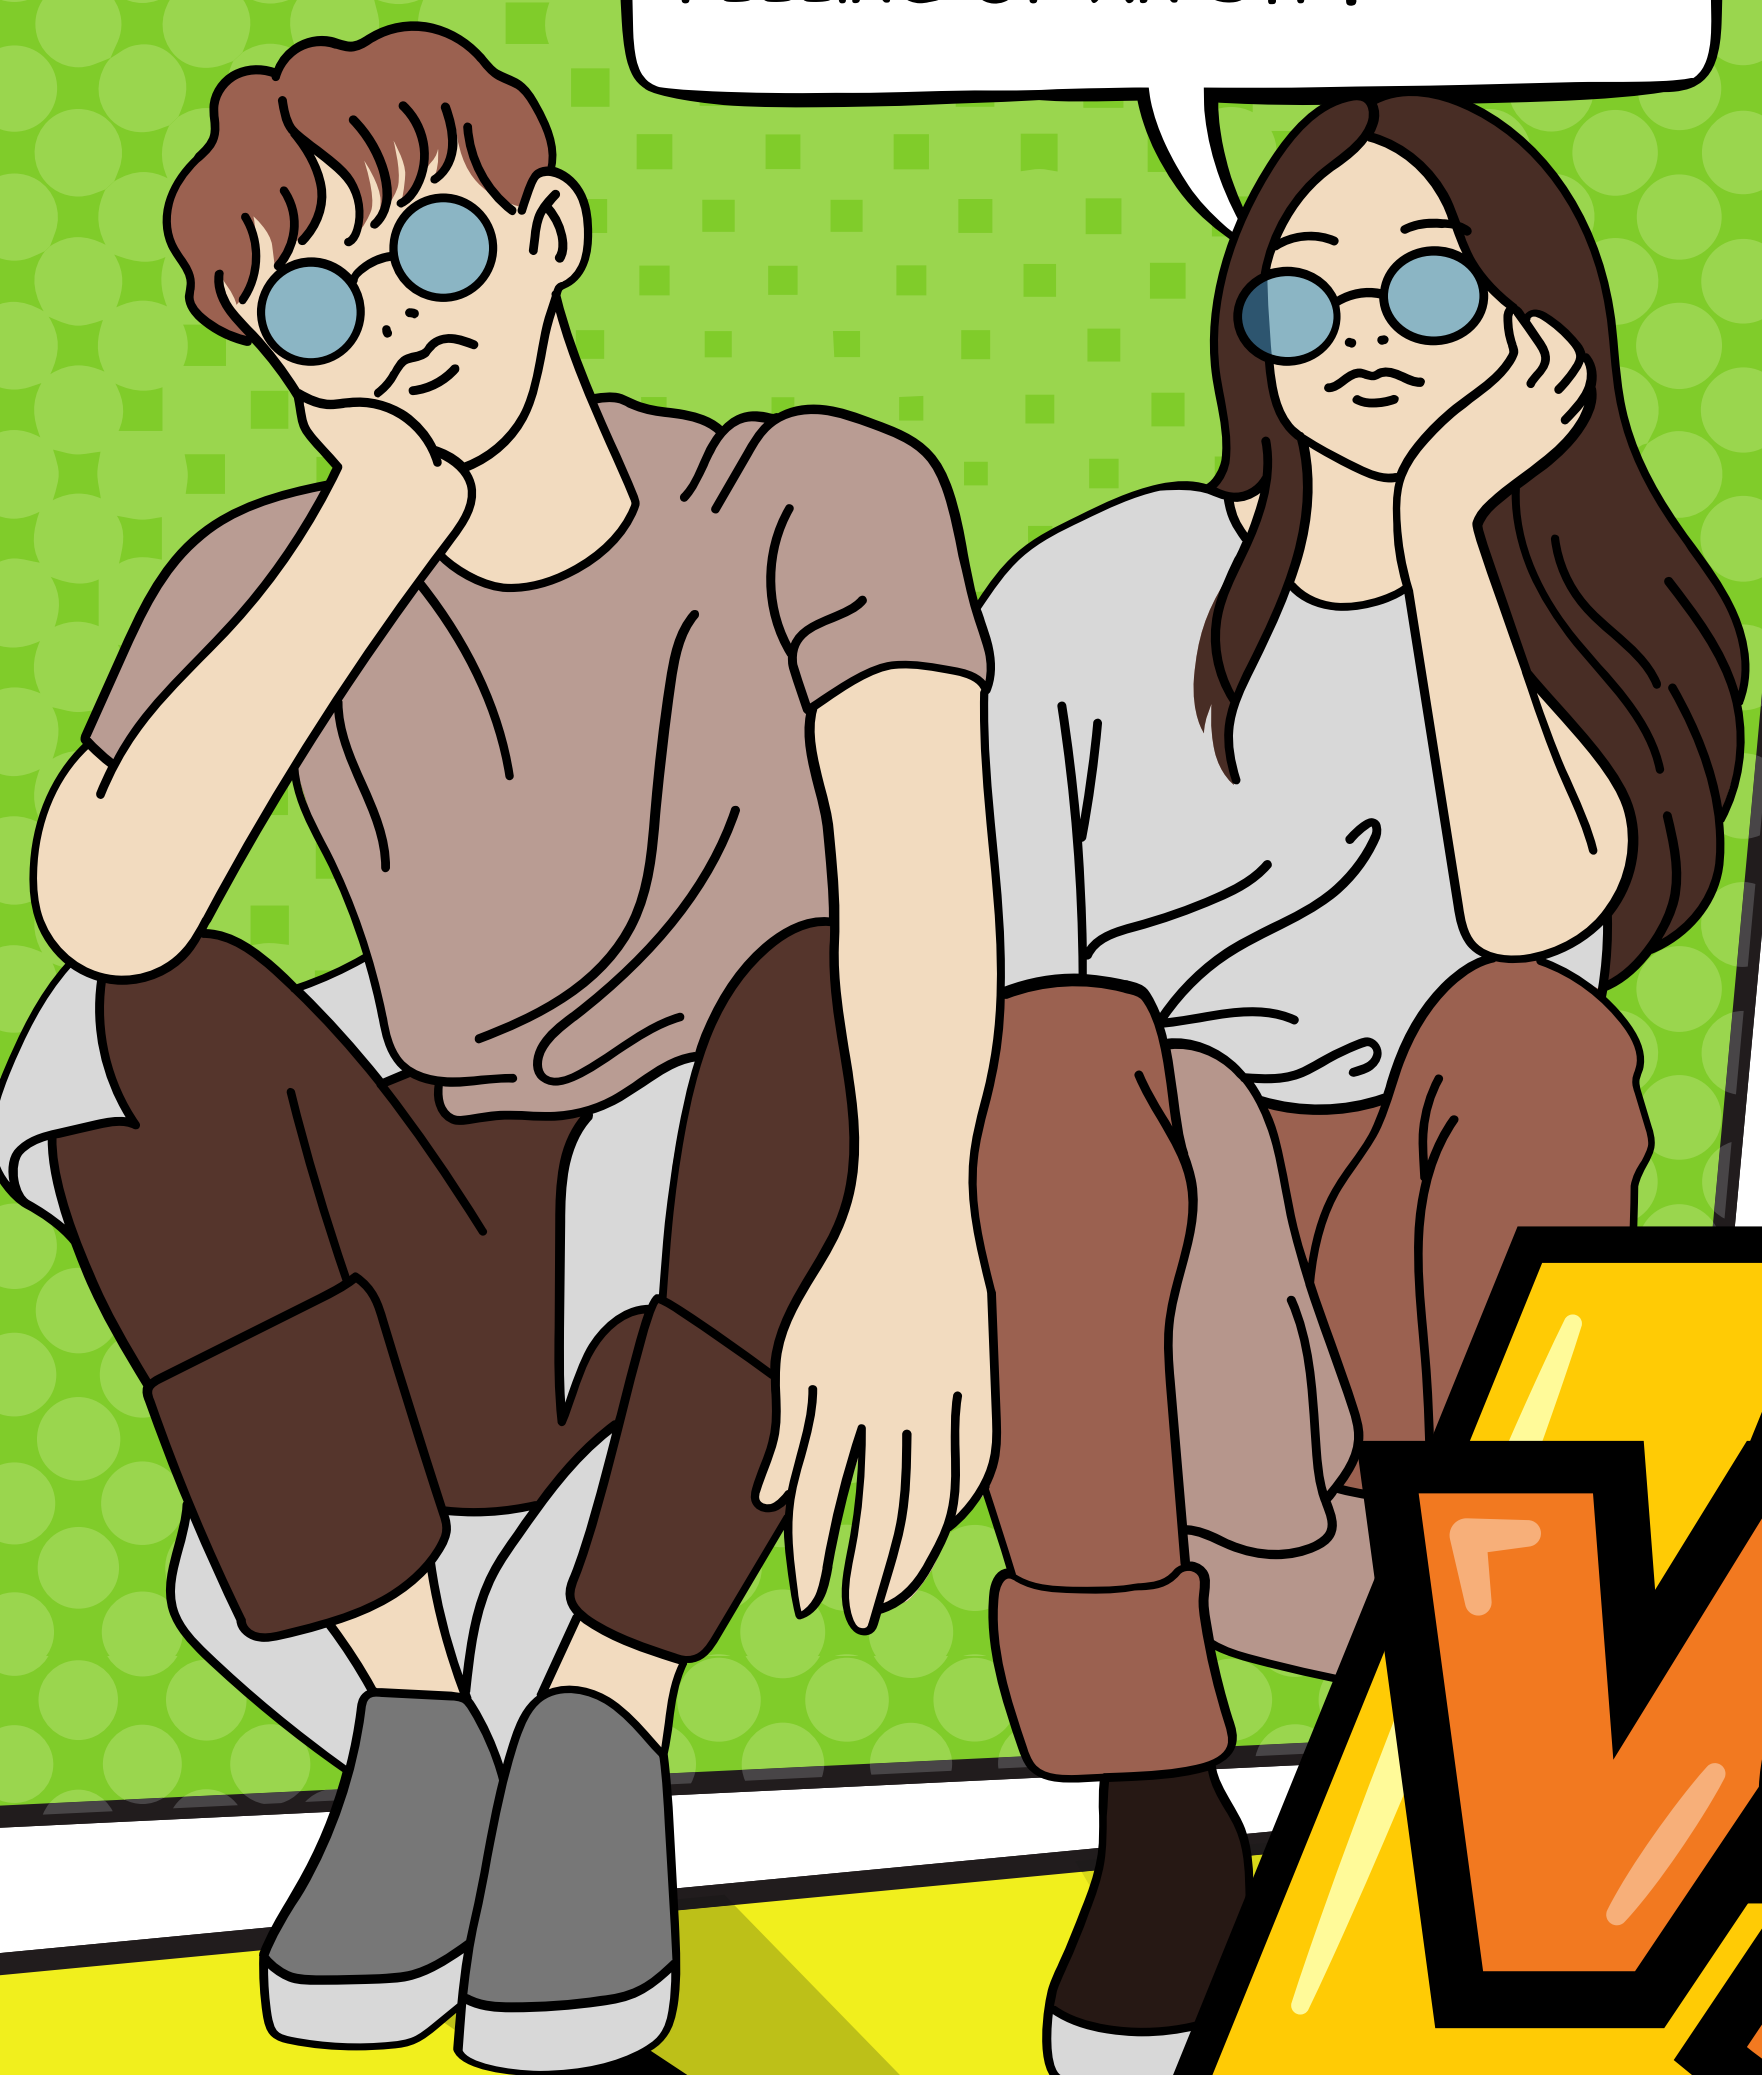

CONDOMS TAKE AWAY FROM THE FEELING. I DON'T LIKE IT.

WOULD YOU RATHER THE FEELING OF AN STI ?

I LOVE HIM; HE LOVES ME. WHATEVER HAPPENS, HAPPENS.

WE'RE IN LOVE, SO USING PROTECTION SHOULDN'T MATTER.

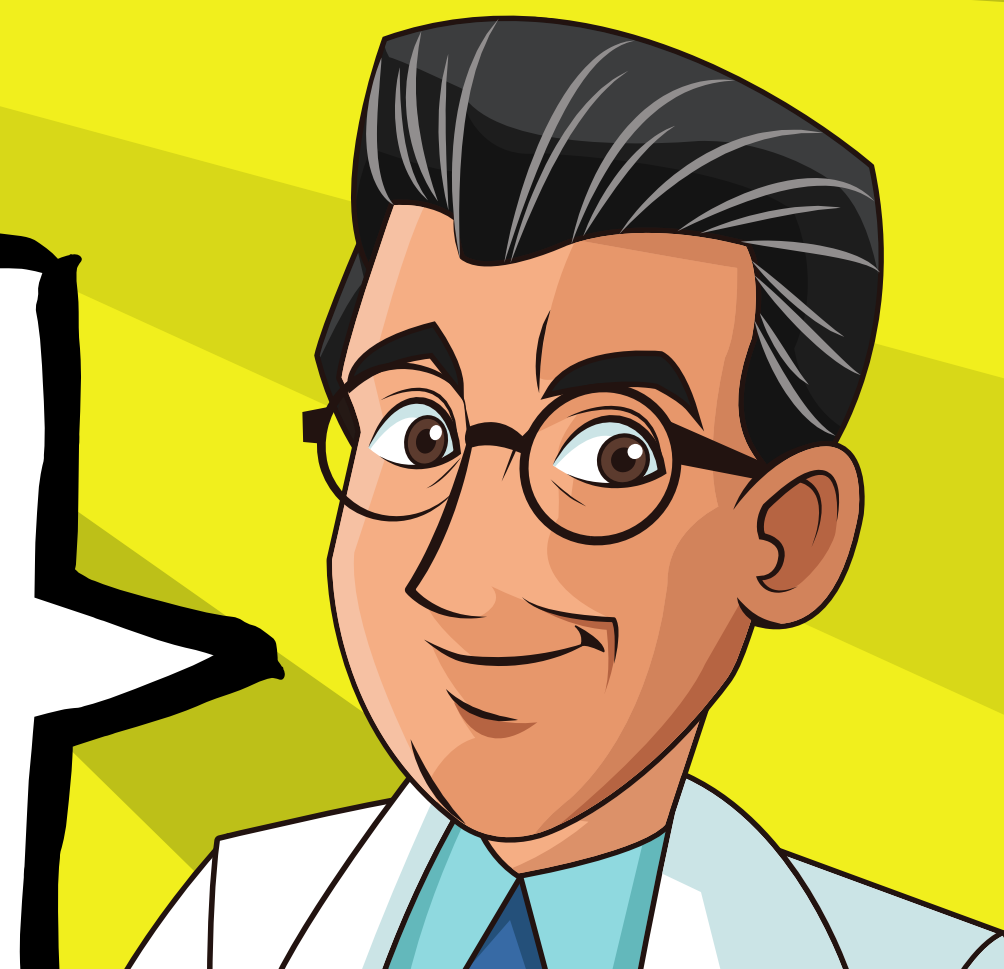

**VS**

# STI AWARENESS WEEK

(APRIL 9 - 15)

THE CONVERSATION CAN SEEM DIFFICULT, BUT NOT HAVING IT CAN BE MUCH WORSE.
