

Fabric Cleaning Codes

CLEANING CODE - W (water based cleaners)

To prevent overall soiling we suggest frequent vacuuming or light brushing to remove dust and grime.

Cleaning by a professional furniture cleaning service only is recommended.

Spot clean using the foam only from a water-based cleaning agent such as a mild detergent or non-solvent upholstery shampoo. Many household cleaning solvents are harmful to the color and life of a fabric so always **pre-test a small hidden area before proceeding**. Apply foam with a soft rag or brush in a circular motion. Vacuum when dry.

CLEANING CODE - S (solvent or dry cleaning products)

To prevent overall soiling we suggest frequent vacuuming or light brushing to remove dust and grime.

Cleaning by a professional furniture cleaning service only is recommended.

Spot clean using a mild water-free solvent or dry cleaning product such as petroleum distillate based products, Energine, Carbona, Renuzit, or similar. CAUTION- Use of water-based or detergent-based solvent cleaners may cause excessive shrinking and water stains that cannot be removed with solvent cleaning agents, may become permanent. **Pre-test a small hidden area before proceeding**. Clean only in a well ventilated room and avoid any product containing carbon tetrachloride which is highly toxic.

CLEANING CODE – W-S (solvent and/or water based cleaners)

To prevent overall soiling we suggest frequent vacuuming or light brushing to remove dust and grime.

Cleaning by a professional furniture cleaning service only is recommended.

Spot clean with a pure mild solvent (petroleum distillate-based product Energine, Carbona, Renuzit or similar), an upholstery shampoo or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well ventilated room. With either method, **pre-test a small inconspicuous area before proceeding**.

CLEANING CODE - X (vacuum or brush only)

Clean this fabric *only* by vacuuming or light brushing to prevent accumulation of dust and grime. Water-based foam cleaners or solvent-based cleaning agents of any kind may cause excessive shrinking, fading, staining, or distortion of the surface pile and therefore should not be used.

CLEANING CODE - P (100% Polyester flame-retardant Fabric)

Machine-wash at 120–160 degrees Fahrenheit. Wash dark separately. Tumble-dry on medium. Fabric softeners not recommended. To press, use steam with low heat setting. **Do not dry clean.**
