

# Volunteer Opportunities at the Club

A few minutes of help keeps our fields ready

WMCTC depends on volunteers to keep trap, skeet, five stand, sporting clays, and youth activities running smoothly. Members can help by loading traps, closing machine covers, refilling targets, testing throwers, and reporting equipment issues.

Extra help is especially appreciated before and during sporting clays shoots, including Thursday target-setting, moving targets, course checks, load machines, greeting shooters, organizing squads, issuing scorecards, and answering basic questions. The Treasurer will continue handling fee collection.

Volunteers are also welcome to support the Youth Program (SCTP) by helping coaches organize squads, monitor safety, load machines, and assist parents and new youth shooters.

**Want to help?** Please pitch in when your schedule permits—even a small amount of time makes a big difference.
