We are officially ready for the 2024 rental season!

We've taken our batteries out of storage, tuned-up our eBikes, and they are ready for the trails. Thanks for being a part of the Lakes 'Lectric Rides family, and we look forward to serving your biking needs this summer.

Sincerely,

Brady Dicks

Owner

Is A Tune-Up Really Worth It?

It doesn't take more than a few seconds of scrolling through a Google search to find many different reasons why bike tune-ups are a good idea. Some of the major benefits are peace of mind that your bike is safe to ride, improved performance, and an extended lifespan on your bike and its key components.

While those benefits sound great, the usual price tag for a bike tune-up at a traditional bike shop does NOT! With most tune-up packages priced at \$100 or more, it's difficult to make the financial sacrifice to be consistent with your bike tune-ups. At Lakes 'Lectric Rides, we want you to reap the benefits of bike tune-ups and other maintenance without the worry of expensive services.

By choosing to service your bike with us, you're receiving professional service at an affordable price. With our quick turnaround times and complementary delivery service, it makes your decision easy. Choose Lakes 'Lectric Rides for your next bike tune-up or maintenance service!
