Specifications and features

Foldable GPS Antenna Mount Holder

MAP-1600 Hexacopter

Specifications and features

Input voltage: AC 110V or 220V Charge power: 2400W (4x600W)
 Charge current range: 5A/10A/15A/20A/25A
 Battery type: LiPo/LiHV
 Battery cell count: 6S
 Working mode: Storage mode/Charge mode
 Balance current: 1.5A/cell
 Net Weight: 8.5KG
 Dimensions: 270x337x150 mm

Features

1. Support charging 4 pcs of 6S LiPo/LiHV batteries.
2. With independent radio battery connection port, support charge 2S/3S radio battery. (Only one radio battery can be charged one time).
3. Charging current is adjustable: 5A/10A/15A/20A/25A.
4. Two working modes: Balance charge mode, Storage mode
5. Memorizing last charging current.
6. LCD display screen show the real-time charging data
7. Multiple protection function: over-voltage, over-current, reverse polarity, and over-temperature protection.

	
Nominal Capacity	30000 mAh
Size	207x90x67mm
Weight	2619g
Composed Type	6S1P
Continuous Discharge	5C
Max Burst Rate	10C
Charging Current	1C(2C Max)
