

# MARK NORMAN, PH.D.

130 Venus St., Thousand Oaks, CA 91360 • 805.796.8257 • [markn@sciconsolutions.com](mailto:markn@sciconsolutions.com)

## PROFESSIONAL SUMMARY

**Innovative and vision-driven Scientific Executive with over 35 years of success providing effective research, project management, solution development, and employee oversight in high-pressure environments.** Conscientious professional with a distinctive legacy in the scientific world and a demonstrated history of effectively leading teams through new initiatives and program implementation. Committed to excellence; dedicated to maintaining a reputation built on quality, service, and uncompromising ethics.

## AREAS OF EXPERTISE

- Medicinal Chemistry/Drug Discovery
- Project/Program Management
- Operations Streamlining
- Informatics Tool Creation
- Cross-Functional Team Management
- Complex Problem Resolution
- Safety Compliance/Adherence
- Procedure Development/Implementation
- Staff Oversight & Mentoring
- Risk Assessment/Mitigation
- Licensing Negotiations
- Conflict Management

## PROFESSIONAL EXPERIENCE

**Scicon Solutions** – Thousand Oaks, CA

2016 – present

### President

Providing scientific consulting, medicinal chemistry support, and discovery research services to pharmaceutical and biotech companies and academia. Website: <https://sciconsolutions.com/>

**BrainStorm Therapeutics, Inc.** – San Diego, CA

2023 – present

### Scientific Advisory Board

BrainStorm Therapeutics is a biotechnology company developing a proprietary "human-first" CNS drug discovery platform utilizing patient iPSC-derived models of brain disease to discover molecules that restore synaptic network function and halt, prevent, or reverse neurodegeneration. Website: <https://www.brainstormtherapeutics.org/>

**ADRx Pharmaceuticals, Inc.** – Thousand Oaks, CA

2020 – present

### Scientific Advisory Board

Guiding ADRx's scientific team in their efforts to develop a unique approach to halting diseases of protein aggregation by utilizing structural insights of aggregated proteins in the form of amyloid and biomolecular condensates. Website: <https://www.adrxpharma.com/>

**California Lutheran University** – Thousand Oaks, CA

2016 – 2018

### Adjunct Chemistry Professor

Taught undergraduate organic chemistry.

**Amgen, Inc.** – Thousand Oaks, CA

1996 – 2015

### Scientific Executive Director (2011 – 2015)

### Director of Research (2006 – 2011)

### Associate Director of Research II (2004 – 2006)

Provided effective chemistry research team and project leadership several drug discovery projects, from initial hit identification to clinical trials in the areas of oncology, inflammation, metabolic disorders, and neuroscience.

- Acted as Medicinal Chemistry Leader, Co-Manager, or Project Team Leader for multiple initiatives including: PI3K $\alpha$ , c-Met, B-Raf, TRPM8, and GKR $\beta$  drug discovery programs leading to clinical candidates: AMG 511, 208, 458, 337, 333, and 339, which progressed into clinical trials for the treatment of cancer, pain, and migraine.

- Personally authored and published several high-impact research publications some of which were utilized in external training programs (Drew University School of Medicinal Chemistry and Gordon Research Conference).
- Key contributor to informatics tool development for the department; designed a MyTeams site for Medicinal Chemistry Department, which helped to significantly enhance the staff's productivity.
  
- Team Lead for several drug discovery projects such as TRPV1, CDK5, B1, PTP1B, NPY5, CB1, and MC4 research programs; Directed medicinal chemistry efforts aimed at identifying clinical candidates for the treatment of stroke, pain, diabetes, obesity, and Parkinson's disease that lead to: AMG 517, 628, and 474.
- Discovery Research Leader and Program Manager for Amgen's B14/B29 building consolidation project supporting Amgen's Full Potential Geographic Footprint Initiative. Acted as key point of accountability with multiple internal and external organizations, architects, contractors, and equipment specialists, and provided strategic direction for reorganization and consolidation efforts.
- Served as Site Head for Environmental Health Safety & Sustainability/EHSS for the 435K sq. ft. Thousand Oaks B29 site housing 490 full-time personnel. Set site safety goals, scheduled appropriate safety training, established metrics reporting and risk assessment plans, conducted regular laboratory inspections, and set overall tone for safe practices.
- Led a cross-functional Site-Safety team comprised of 45 members; Served on the core team of the R&D Safety Improvement Plan: Safe Laboratory Practices and Safety Culture leading to significantly fewer accidents and injuries from the previous year.
- Successfully led the \$2.5M cross-site electronic notebook, "e-Notebook" project initiative; collaborated with the Research Informatics group and an outside vendor to design, deploy, and implement an efficient electronic notebook system for the entire Medicinal Chemistry Department, thereby completely eliminating paper notebooks and providing the chemists and patent attorneys a valuable, real-time, searchable database.

***Additional significant contributions include:***

- » Contributed to the identification of eleven clinical candidates.
- » Distinction of holding more Amgen patents than any other employee and for being one of the most published authors in the company's cumulative history.
- » First Scientist featured on Amgen's R&D website.
- » Requested by upper management to evaluate licensing opportunities focused on the treatment of head trauma, stroke, obesity, epilepsy, diabetes, arrhythmia, cancer, inflammation, and pain; performed extensive analyses and made appropriate recommendations to senior management. Efforts led to the in-licensing of a promising series of compounds for the treatment of inflammatory conditions.
- » Client sponsor for Chemistry's Research Informatics projects that included the successful development of a new compound registration system (CoRe) and the Retire ISIS Project (RIP). The compound registration system was integrated with the electronic notebook system saving time and streamlining the chemist's workflow.
- » Member of BACE Medicinal Chemistry Team that recently identified 2 clinical candidates, AMG 978 & AMG 138.
- » Member of the Research Management Committee/RMC for the BioFocus collaboration.
- » Medicinal Chemistry Chairman; coordinated internal/external speaker presentations for departmental meetings.
- » Accountable for overseeing teams and introducing effective learning courses and project initiatives for department.
- » Introduced courses such as "Scientific & Technical Writing" that improved the employee skill sets within the Medicinal Chemistry Division.

**Additional Relevant Positions**

**Amgen** • Research Scientist II, Research Scientist III, and Associate Director of Research I                    1996 – 2004

**Glaxo Wellcome, Inc.** • Senior Research Investigator                    1995 – 1996

**Burroughs Wellcome Co.** • Research Scientist III, Research Scientist IV, and Research Scientist V 1987 – 1995

|   |             |
|---|-------------|
| <b>University of California, Berkeley</b> • Research Assistant                            | 1982 – 1987 |
| <b>Alfa Products, Thiokol/Ventron Division</b> • Synthetic Organic Chemist                | 1982        |
| <b>University of New Hampshire (Chemical Engineering Department)</b> • Analytical Chemist | 1981        |

---

## EDUCATION

**Ph.D. Organic Chemistry • GPA 3.98/4.00** • University of California, Berkeley

**B.S. Chemistry • GPA 3.71/4.00; Summa cum Laude** • University of New Hampshire

---

## PROFESSIONAL AFFILIATIONS

**Associate Editor** • *The Journal of Pharmacognosy*

**Editorial Advisory Board** • *Pharmaceuticals* • *Medicinal Chemistry Reviews* • *Current Topics in Medicinal Chemistry* • *Medicinal Chemistry-Online* • *The Open Drug Discovery Journal* • *Journal of International Research in Medical & Pharmaceutical Sciences*

**Referee** • *Journal of Medicinal Chemistry* • *Bioorganic & Medicinal Chemistry Letters* • *Journal of Organic Chemistry* • *Journal of Heterocyclic Chemistry* • *Medicinal Chemistry*

**Member** • American Chemical Society

---

## HONORS AND AWARDS

- Amgen Discovery Research Innovation Award
- Journal of Medicinal Chemistry Highly Read Article Award
- Featured scientist profiled for Amgen's R&D website
- Amgen Star and Bravo Awards (17x)
- Bioorganic & Medicinal Chemistry Letters: Most Cited Paper Award
- Amgen Special Recognition Award
- Burroughs Wellcome Co. Excellence and Special Performance Awards
- Marquis Who's Who in Medicine and Healthcare
- Sigma Xi Scientific Research Society
- Bruce H. Mahan Memorial Teaching Award
- Phi Lambda Upsilon Honor Society
- Phi Beta Kappa Honor Society
- Phi Kappa Phi Honor Society
- Bailey Prize in Chemistry
- Richard M. Ford Memorial Award
- Heman C. Fogg Fellowship in Analytical Chemistry
- Sophomore Award in Organic Chemistry
- High School Valedictorian

---

## PUBLICATIONS/PRESENTATIONS/PATENTS (See Appendix for a detailed reference list)

**81** • Publications in peer-reviewed journals

**1** • Book Chapter

**89** • Presentations

**67** • Patents

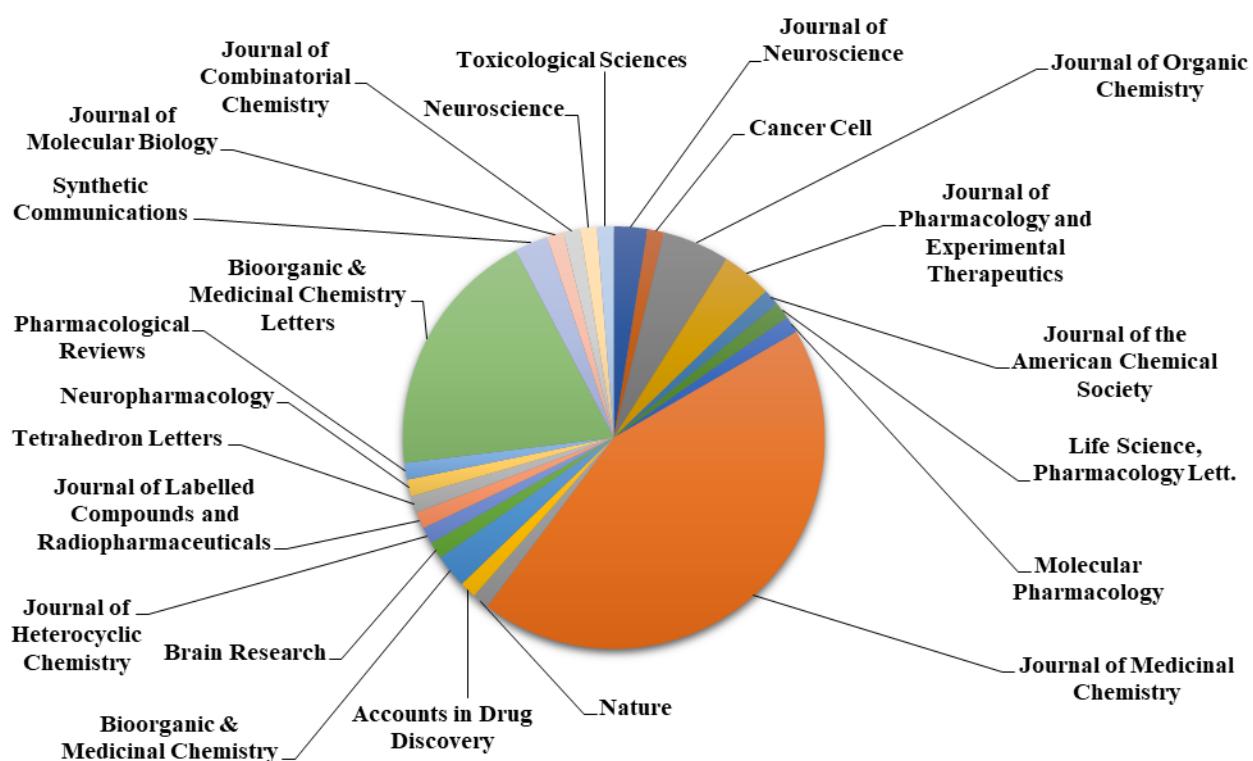

---

## VOLUNTEER & COMMUNITY SERVICE

Alzheimer's Association • Conejo Parks & Recreation • Habitat for Humanity • Manna Conejo Valley Food Distribution Center • American Cancer Society • Tushita Kadampa Buddhist Center • Children's Hospital LA International Medical Corps • Arthritis Foundation • Leukemia & Lymphoma Society, Inc. • Wells Bring Hope

## APPENDIX

Lloyd, Seifu Tadesse, Clarence Hale, and David J. St. Jean, Jr. "Optimization of a series of an N-arylsulfonamido-N'-aryl-piperazine GK-GKRP modulators: Exploration of a novel binding pocket in GKRP" Abstracts of Papers, 247th ACS National Meeting & Exposition, Dallas, TX, United States, March 16-20, **2014**.

86. Longbin Liu, Mark H. Norman, Kate S. Ashton, Kristin L. Andrews, Marion C. Bryan, Michael D. Bartberger, Jie Chen, Kui Chen, Michelle Chen, Michael Croghan, Samer Chmait, Rod Cupples, Elizabeth Galbreath, Joan Helmering, Fang-Tsao Hong, Steven R. Jordan, Roxanne K. Kunz, Robert J. M. Kurzeja, Klaus Michelsen, Nobuko Nishimura, Lewis D. Pennington, Steve F. Poon, Darren Reid, Glenn Sivits, Markian M. Stec, Nuria Tamayo, Seifu Tadesse, Gwyneth Van, Steve L. Vonderfecht, Robert C. Wahl, Kevin Yang, Jiandong Zhang, David J. Lloyd, Clarence Hale, Christopher Fotsch, and David J. St. Jean, Jr. "Small molecule disruptors of the GK-GKRP interaction as potential antidiabetics" From Abstracts of Papers, 247th ACS National Meeting & Exposition, Dallas, TX, United States, March 16-20, **2014**.
87. Daniel B. Horne, Holger Monenschein, Nuria A. Tamayo, Michael D. Bartberger, Yunxin Bo, Jeffrey Clarine, Carl D. Davis, Vijay K. Gore, Matthew R. Kaller, Sonya G. Lehto, Vu V. Ma, Nobuko Nishimura, Thomas T. Nguyen, Phi Tang, Weiya Wang, Beth D. Youngblood, Maosheng Zhang, Mark H. Norman, and Narender R. Gavva "Discovery, Optimization, and SAR of a Novel Series of Tetrahydroisoquinoline Transient Receptor Melastatin 8 (TRPM8) Antagonists" Presented at the 34<sup>th</sup> National Medicinal Chemistry Symposium, Charleston, South Carolina, May 18-21, **2014**.
88. Fang-Tsao Hong, Mark H. Norman, Kate S. Ashton, Michael D. Bartberger, Jie Chen, Samer Chmait, Rod Cupples, Christopher Fotsch, Steven R. Jordan, David J. Lloyd, Longbin Liu, Roxanne K. Kunz, Klaus Michelsen, Nobuko Nishimura, Lewis D. Pennington, Steve F. Poon, Darren Reid, Glenn Sivits, Markian M. Stec, Seifu Tadesse, Nuria Tamayo, Gwyneth Van, Kevin C. Yang, Jiandong Zhang, Clarence Hale, and David J. St. Jean, Jr. "Potent Small-Molecule Disruptors of the Glucokinase-Glucokinase Regulatory Protein (GK-GKRP) Interaction as Potential Antidiabetic Agents" Presented at Mastering Medicinal Chemistry Conference, Boston MA, June 15, **2014**.
89. Siegmund, Aaron C.; Bourbeau, Matthew; St Jean, David J.; Bartberger, Michael D.; Pennington, Lewis D.; Norman, Mark H.; Hungate, Randy; Lloyd, David J.; Hale, Clarence "Small molecule inhibitors for glucokinase-glucokinase regulatory protein (GK-GKRP) binding: Optimization for in vivo target assessment of type II diabetes" From Abstracts of Papers, 248th ACS National Meeting & Exposition, San Francisco, CA, United States, August 10-14, **2014**.

## PATENTS / INVENTIONS

---

1. Norman, Mark Henry; Navas, Frank, III. "Piperazine and piperidine derivatives and their use as antipsychotics" PCT Int. Appl. (1993), 204 pp. WO 9316073 A1 19930819.
2. Norman, Mark Henry; Navas, Frank, III. "Preparation of [(benzisothiazolylpiperazinyl)butyl]pyridinecarboxamides and related compounds as antipsychotics" PCT Int. Appl. (1994), 59 pp. WO 9418196 A1 19940818.
3. Gerritz, Samuel; Norman, Mark H. "Crown Handling Devices" resulting in a 'Disclosure of Trade Secrets' agreement between Glaxo Wellcome and Chiron Technologies, April 24, 1998.
4. Norman, Mark H.; Chen, Ning; Han, Nianhe; Liu, Longbin; Hurt, Clarence R.; Fotsch, Christopher H.; Jenkins, Tracy J.; Moreno, Ofir A. "Preparation of bicyclic pyridine and pyrimidine derivatives as neuropeptide Y receptor antagonists" PCT Int. Appl. (1999), 469 pp. WO 9940091 A1 19990812.
5. Hamilton, Gregory S.; Norman, Mark H.; Wu, Yong-Qian; Steiner, Joseph P. "Preparation of urea and carbamate derivatives of N-heterocyclic carboxylic acids and carboxylic acid isosteres for the treatment of neurodegenerative diseases and alopecia" PCT Int. Appl. (1999), 102 pp. WO 9962879 A1 19991209.
6. Hamilton, Gregory S.; Norman, Mark H.; Wu, Yong-Qian. "N-linked sulfonamides of N-heterocyclic carboxylic acids or carboxylic acid isosteres for treatment of neurological disorders and alopecia" PCT Int. Appl. (1999), 96 pp. WO 9962880 A1 19991209.

7. Hamilton, Gregory S.; Norman, Mark H.; Wu, Yong-Qian; Steiner, Joseph P. “Preparation of aza-heterocyclic compounds used to treat neurological disorders and hair loss” PCT Int. Appl. (1999), 96 pp. 9962881 A1 19991209.
8. Hamilton, Gregory S.; Norman, Mark H.; Wu, Yong-Qian; Li, Jia-He; Steiner, Joseph P. “Aza-heterocyclic compounds used to treat neurological disorders and hair loss” PCT Int. Appl. (1999), 106 pp. WO 9962888 A1 19991209.
9. Hamilton, Gregory S.; Norman, Mark H.; Wu, Yong-qian. “Preparation of prolinylalkanediones and related compounds for treating neurological disease, vision disorders, and alopecia” PCT Int. Appl. (2000), 166 pp. WO 2000032588 A2 20000608.
10. Hamilton, Gregory S.; Norman, Mark H.; Wu, Yong-Qian. “Carboxylic acids and carboxylic acid isosteres of N-heterocyclic compounds, preparation thereof, and use in the treatment of neurological and other disorders” U.S. (2001), 62 pp., Cont.-in-part of U.S. Ser. No. 204,237, US 6331537 B1 20011218.
11. Burgess, Laurence E.; Gaudino, John; Groneberg, Robert D.; Norman, Mark H.; Rodriguez, Martha E.; Sun, Xicheng; Wallace, Eli M. “Preparation and use of α-arylsulfonylamino-α-benzylcarboxamides as phosphatase inhibitors” PCT Int. Appl. (2002), 77 pp. WO 2002004412 A2 20020117.
12. Santora, Vincent; Askew, Benny; Ghose, Arup; Hague, Andrew; Kim, Tae Seong; Laber, Ellen; Li, Aiwen; Lian, Brian; Liu, Gang; Norman, Mark Henry; Smith, Leon; Tasker, Andrew; Tegley, Christopher; Yang, Kevin. “Preparation of diheteroaryl ureas as antitumor agents” PCT Int. Appl. (2002), 371 pp. WO 2002014311 A2 20020221.
13. Hamilton, Gregory S.; Norman, Mark H.; Wu, Yong-qian. “Preparation of pyrrolidino and piperidino sulfonamides for treatment of neurological disorders and alopecia” U.S. Pat. Appl. Publ. (2002), 29 pp., Cont.-in-part of U. S. Provisional Ser. No. 87,842. US 2002052510 A1 20020502.
