

Elementary Choir

Singing as a group is a wonderful, fun way to develop musical skills and friendships. Starting with Grade 1 school children, up to Grade 6, students will learn correct vocal technique, and some basic music reading skills. Our literature is drawn from attractive unison songs, and progresses to rounds, songs with percussion instruments, and when ready, simple two-part singing using drones or descants. I look for music with humour, beauty and deep truths. There will be a concert with other performers from the conservatory at the end of the term, and hopefully opportunity to sing in a Seniors care facility and/or a local church.
