Director's Note

The first time I read *Little Women*, I immediately fell in love with the characters: Jo's passion, Beth's empathy, Meg's selflessness, and Amy's ambition. As I returned to the book over the years, I realized that it wasn't the girls' individual characteristics that made the story special. The magic lies in their relationships, in their connection to each other. Throughout these two years of isolation, I have been reminded time and time again of the importance of love and community in times of strife. *Little Women* depicts a family's resilience and compassion through hardship, and these qualities have been reflected tenfold in our cast and crew over the course of this project. I am so excited to share the product of our hard work with you – please enjoy the show!- Hannah Klose
