Our five unique surfacing products were designed and manufactured with specific applications in mind. From outdoor basketball and skating to indoor multi-game courts, roller derby and high performance inline hockey rinks we have all the surfaces covered.

IceCourt is the trusted choice for inline hockey and roller derby professionals. Our skate surfacing was specifically designed for intense, championship level play, and it is currently being used by the International Inline Hockey Federation, the US Amateur Athletic Union and the Women's Flat Track Derby Association.
Why Choose IceCourt?

Customers Come First Philosophy
The secret to a long-lasting surface lies in expert design, service, and installation. We promise to deliver everything needed before, during, and after installation to keep your surface performing for years to come.

Custom Courts Built Just For You
Let us custom design a court just for you…any size, any color combination, any game, any logo, **everything you want**. When you work with IceCourt, you will work with our in-house designers to get a custom solution that fits your activities and budget.

Made In The USA
We are proud that all of our surfacing options are made right here in the USA.

Resilient Material
All IceCourt tiles are molded from a specially blended high impact polypropylene polymer that protects against fracturing during intensive play. UV stabilizer additives are included to defend against color fade and tile deterioration. Plus, our materials meet FDA standards and exceed the ASTM G21 Anti-fungal Test.

Patented Locking Systems
Our revolutionary interlocking mechanisms create a seamless, monolithic appearance, preventing any tiles from turning or curling up. Best of all, the tiles snap together effortlessly making installation a breeze.

### Attractive Appearance
With numerous standard color and line options, IceCourt Tile are used to create eye catching surfaces that transform backyards, schools and other facilities.

### Easy to Maintain
Unlike concrete courts that crack or wood gym floors that require regular polishing and periodic refinishing, IceCourt Tiles require minimal maintenance. They can be cleaned with a leaf blower or garden hose.

### Long Lasting
IceCourt Tiles are constructed utilizing a durable polypropylene material that is resistant to cracks and fractures. IceCourt Tiles have a 25-30 year structural life expectancy.

### Safe
Our shock absorbing plastic tiles feature expansion joints and a spring tabbing mechanism that allows side-to-side movement and forgiveness on joints and lower back.

### Quick Assembly
Fast, easy installation is a breeze.

### Cooler
IceCourt is up to 50% cooler than asphalt or concrete surfaces.

### Multi-Use
Utilize one location for multiple sports.
In roller hockey, the surface is the most important element. A fast game is more exciting for the players as well as for the audience. IceCourt is the fastest skating surface with specific, patented design elements to speed up the game of inline hockey.
SPEED INDOOR  Professional Inline Hockey

PRODUCT SPECS

Size & Weight – 9.81” x 9.81” x 1/2” thick, 11.2 oz.

Surface Texture – Two-level surface profile designed so wheels only touch the top layer for low friction during cruise and speed skating, and the wheels dig into the lower layer for cornering and acceleration movements. The patented surface pin-heads reduce puck friction for long smooth puck glide. Surface perforations release air pressure buildup which prevents uneven puck glide.

Material – Specially blended high impact copolymer polypropylene is a non recycled product that cannot be damaged by hockey sticks.

Patented Surface Profile
Best wheel grip and fastest puck speeds

Resilient Material
Durable material is flexible against falls, minimizing injury

Patented Surface Pin-Heads
Surface pin heads and perforations for natural puck glide

Precision Locking System
Creates a seamless, monolithic appearance that is ideal for skating
**COMPETE**  Sports and Multipurpose

**PRODUCT SPECS**

**Size & Weight** – 9.81” x 9.81” x 1/2” thick, 12.1 oz.

**Surface Texture** – Profile texture design to maintain a positive grip at all times even when damp, while enabling volleyball slides and reducing the visibility of scratch marks and skid marks.

**Material** – Specially blended high impact copolymer polypropylene creates less rigid fall surface.

**Installation** – Optional 2mm rubber underlayment increases shock absorption, provides a comfortable feel for running and jumping and dampens running or rolling noises.

- **Patented Surface Profile**
  Surface relief provides excellent grip, Diffuser Stars dampen sound and allow for water evaporation

- **Resilient Material**
  Durable and scuff-resistant – perfect for high-traffic applications

- **Precision Locking System**
  Creates a seamless, monolithic appearance

Components are not drawn to scale.
PRODUCT SPECS

**Size & Weight** – 9.81” x 9.81” x 1/2” thick, 12.1 oz.

**Surface Texture** – Two-level surface profile designed so wheels only touch the top layer for low friction during cruise and speed skating, and the wheels dig into the lower layer for cornering and acceleration movements.

**Material** – Specially blended high impact copolymer polypropylene creates less rigid fall surface.

**Installation** – Anchor system prevents floor from shifting and polymesh underlayment dampens rolling noises and perfects skate feel and feedback.
Game Outdoor Sports

**Product Specs**

**Size & Weight** – 10.13” x 10.13” x 3/4” thick, 7 oz.

**Surface Texture** – Open grid design provides a high grip surface in all weather conditions.

**Material** – Specially blended high impact copolymer polypropylene. UV stabilizer and anti-oxidant additives are molded into each tile to insure protection against color fade and plastic deterioration & oxidations.

**Support Structure** – Each tile is supported by 155 cross posts. This provides a stable base and gentle vertical flex.

- **Athlete Protection**
  Lower back, knee, and joint forgiveness for players

- **Resilient Material**
  Specially blended material stands up to harsh weather & high intensity play

- **Patented Locking System**
  Precision locking system to eliminate gaps

- **Optimal Tile Size for Peak Performance**
  Consistent ball bounce and response for exceptional playability

Components are not drawn to scale.

We’ve Got Your Back

IceCourt manufactures, designs and delivers innovative courts.

Then we back our products with a lifetime of warranty solutions.

IceCourt wants you to be a customer for life and we plan to achieve this by providing you the highest quality products and the industry’s best and most clear warranty. Our desire is that when you place your faith in us you will have a worry-free recreational surface for years to come. That’s why we have invested heavily in state-of-the-art injection molding equipment and control all aspects of manufacturing every tile we sell. Also, we have partnered with the best automotive additive suppliers to ensure our UV stabilizers and other proprietary additives will provide our products with the longest life possible.

As an added benefit to our customers we offer the best warranty in the business.
