Derived from the words “Versatile” and “Court,” VersaCourt systems have lived up to their name. The dynamic and colorful appearance combine with its inherent safety, maintenance and performance characteristics to make VersaCourt an obvious choice for all types of sports surfacing.

Whether you are a homeowner looking for a backyard basketball court or a school facilities manager requiring a more kid-friendly surface, VersaCourt employs an innovative, centralized design and construction process that improves quality, lowers cost and streamlines installation.
Why Choose VersaCourt?

Customers Come First Philosophy
The secret to a long-lasting court lies in expert design, service, and installation. We promise to deliver everything needed before, during, and after installation to keep your court performing for years to come.

Custom Courts Built Just For You
Let us custom design a court just for you…any size, any color combination, any game, any logo, **everything you want**. When you work with VersaCourt, you will work with our in-house designers to get a custom solution that fits your backyard, activities and budget.

Made In The USA
We are proud that all of our surfacing options are made right here in the USA.

The VersaCourt Difference
Every VersaCourt order is fully assembled in our warehouse and all requested lines and logos are pre-painted by our team of professionals in a controlled environment to ensure accuracy and longevity. We then number each section, disassemble the court, and pack the tiles according to a labeled diagram.

This process makes your VersaCourt DIY installation a breeze. Once your custom VersaCourt arrives on-site just follow 7 easy steps to install.

### Attractive Appearance
With numerous standard color and line options, VersaCourt Tiles are used to create eye catching surfaces that transform backyards, schools and other facilities.

### Long Lasting
VersaCourt Tiles are constructed utilizing a durable polypropylene material that is resistant to cracks and fractures. VersaCourt Tiles have a 25-30 year structural life expectancy.

### Easy to Maintain
Unlike concrete courts that crack or wood gym floors that require regular polishing and periodic refinishing, VersaCourt Tiles require minimal maintenance. They can be cleaned with a leaf blower or garden hose.

### Safe
Our shock absorbing plastic tiles feature expansion joints and a spring tabbing mechanism that allows side-to-side movement and forgiveness on joints and lower back.

### Quick Assembly
Fast, easy installation is a breeze.

### Cooler
VersaCourt is up to 50% cooler than asphalt or concrete surfaces.

### Multi-Use
Utilize one location for multiple sports.

### Year Round Usability
Durable all-weather sport surface with a fast-drain, open-grid design.
ASTM G154-12
Our colors remain vibrant after years of UV exposure.

Precision locking system to eliminate gaps

Optimal Tile Size for Peak Performance
Consistent ball bounce and response for exceptional playability

Product Specs

Size & Weight – 10.13” x 10.13” x 3/4” thick, 7 oz.

Surface Texture – Open grid design provides a high grip surface in all weather conditions.

Material – Specially blended high impact copolymer polypropylene. UV stabilizer and anti-oxidant additives are molded into each tile to ensure protection against color fade and plastic deterioration & oxidations.

Support Structure – Each tile is supported by 155 cross posts. This provides a stable base and gentle vertical flex.
SPEED OUTDOOR Outdoor Inline Hockey, Skate and Sport Flooring

PRODUCT SPECS

Size & Weight – 9.837” x 9.837” x 1/2” thick, 11.2 oz.

Surface Texture – Open grid design provides optimal wheel grip and puck glide in all weather conditions.

Material – Specially blended high impact copolymer polypropylene. UV stabilizer and anti-oxidant additives are molded into each tile to insure protection against color fade and plastic deterioration & oxidation.

- Patented Surface Profile & Pinheads
  Best wheel grip and fastest puck speeds

- Resilient Material
  Specially blended material stands up to harsh weather

- Surface Perforations
  Designed for fast drainage

- 4mm Surface Layer with Force Bridges
  Strong impact resistance and flexibility
SPEED INDOOR  Professional Inline Hockey

PRODUCT SPECS

Size & Weight – 9.825" x 9.825" x 1/2" thick, 11.2 oz.

Surface Texture – Two -level surface profile designed so wheels only touch the top layer for low friction during cruise and speed skating, and the wheels dig into the lower layer for cornering and acceleration movements. The patented surface pin-heads reduce puck friction for long smooth puck glide. Surface perforations release air pressure buildup and prevents uneven puck glide.

Material – Specially blended high impact copolymer polypropylene is a non recycled product that cannot be damaged by hockey sticks.

Patented Surface Profile
Best wheel grip and fastest puck speeds

Resilient Material
Durable material is flexible against falls, minimizing injury

Patented Surface Pin-Heads
Surface pin heads and perforations for natural puck glide

Precision Locking System
Creates a seamless, monolithic appearance that is ideal for skating
