A Mobile App On A Mission

DDAAT-App! (TM) is a mobile app on a mission to place a father-figure at the fingertips of at risk teens & young adults negatively impacted by the Absentee Father Crisis.

Numerous studies have shown that teen & young adults are negatively impacted by our nation's absentee-father crisis! Our local communities, schools, and ultimately our children pay the price in terms of reduced school performance, increase crime within the community, mental health concerns (increase rates of depression, suicide, bullying, low self-esteem, local crime & gang activity, and higher taxes for property as our communities seek to find strategic ways to address these impacts!

DDAAT-App! is a Mobile App on a Mission to collaboratively lead change in this area and to heal our communities one city, county, school district, at a time through a united community-wide collaboration! DDAAT-App! Provides real-time, researched-based culturally responsive instruction via an engaging mobile app that is safe (no direct contact), real-time, and aligned with the Nation's Common Core objectives for Socially & Culturally Responsive Instruction/Intervention.

DDAAT-App! is the registered trademark of Flourish Family & Financial Solutions Benefit LLC and Available exclusively through Flourish Individual & Community Empowerment, Inc. All rights reserved.
