

STEMM+ (TM) is Our proprietary STEMM+ (TM) method blends STEM, music production, digital animation, coding, leadership, and life-saving skills, empowering youth with suicide prevention strategies through creative projects and innovative technology. The program spans far beyond music, encouraging exploration of STEMM career paths, building self-esteem, and fostering self-advocacy, effective communication, and self-management of emotions and behaviors.

Supercharged STEM & self discovery - Youth discover their Behavior Superpower(TM) - the world's only behavioral science profile for youth by DresmSmart Behavioral Solutions.

Technology & Mission Meet here with our groundbreaking mobile app & upcoming gamified solutions improving access to & effectiveness of education, support, & optional counseling services

Exploring self-discovery & empowerment tools & strategies. Youth learn essential tools for emotional and behavioral self-management that foster mental resilience, self-advocacy, and civic responsibility.

Music sparks the journey, but our program expands far beyond into art, spoken word, public speaking, & leadership. It's a venture into a future-focused mindset, exposing youth to endless possibilities beyond music.

Mindset & Mentoring focused on embracing life & creating bright futures through career exploration and tailored experiences, we help youth embrace life and build bright futures in emerging career paths.

Youth are equipped with an essential suicide prevention strategy toolkit, life-saving skills, and certifications in first aid, QPR, and CPR.

Our Mission

Our mission is to create flourishing, safe, and caring communities and schools through the seamless integration of technology, mental health support, and collaboration. At the DDAAT-App! Initiative, we are driven to solve shared social problems by forming a catalytic collaborative alliance. Beginning with the national suicide crisis, we aim to pioneer innovative solutions that resonate across communities, fostering well-being and unity.

About Us

Flourish Foundation Project Inc, operating as DDAAT-App!, is a federally recognized nonprofit 501c3 tax-exempt organization dedicated to creating safe and caring communities and schools. Headquartered in Charlotte, NC, where the city currently faces the highest suicide rates for teens and young adults ages 12-24 in the state, the national suicide crisis is home for us. Our journey for safe and caring communities and schools begins with taking center stage in fighting the national suicide crisis. Through collaboration with other heart-centered organizations, we unite individuals, businesses, and organizations to create collaborative solutions to shared social problems. This marks a bold and groundbreaking initiative as we take center stage in the journey towards a safer, more resilient future. Charlotte 1st - Leading the Nation.
