First 50 students \$100/week
all school year long

The Fairhope Youth Collective is a 6800+ square foot facility equipped with everything needed for your child to *excel after the bell*.

To streamline our services, you will be provided with full access to our online Parent Portal powered by *LineLeader* to allow for efficient communication, convenient payment options, & real time updates.

Your child will have fun while exploring interests in various enrichment programs they might not otherwise be exposed to or have the opportunity to do so.

When you pick them up, your child will not only have their homework completed, but will have been fully entertained with various fun & educational FYC activities while forming lifelong friendships.

Every staff member at Fairhope Youth Collective passes a rigorous background check and holds current CPR and First Aid certification. They receive in-depth training on our policies and procedures and take part in ongoing professional development. This includes regular seminars focused on key aspects of daily operations such as schedule coordination, transportation routines, clear communication with children and families, and pick-up and drop-off procedures.

FYC is here to help you spend more time with your family at home instead of running all over town to multiple practices & stressing over homework assignments.
