PLEASE FILL OUT ALL BOXES IN AS MUCH DETAIL AS POSSIBLE

(By filling out these boxes I can get an idea from the start of your idea. Maybe you're not sure on what you would like yet but this form might help you make some early considerations.)

CLIENTS NAME:

Space

(Where do you envisage your bespoke item to go in your home? Is it a lounge? Kitchen? Dining room? Etc. A space can reflect how furniture is made. We need to know if what you are wanting will work functionally in this space and if it compliments the space around it.)

Functionality

(What functionality do you want from your bespoke item. Is it going to be a functional piece of furniture that's going to take day to day life or is it purely decorative? What's it going to be used for? These are some questions to ask yourself.)

Wood Type

(We will need to decide the wood type together. I will help and advise you to decide what will work, and what wont. Some woods work better in certain environments compared to others. Although this is not a final decision, I can help you decide. It's a good idea to consider what wood types you like. That might be darker woods like Walnut or lighter woods like Oak. We all have our own preferences.)

Furniture Type

(What is the furniture you are thinking of. Is it a built-in bookcase? Free standing furniture? Dining table? Chair? Decorative furniture? Small trinket box? ETC. Or maybe you're not sure yet)

Shape

(Lastly please think about what shape you are thinking of. You might be considering organic shaped furniture with curves and rounds like a round dining table/ chair. Or maybe something square with clean lines and sharp edges. You might also not be sure yet, but you could think what style furniture you already have and will it compliment other items in the room.)
