

ECO-RESOURCE CONSULTING, INC

WHO WE ARE

Eco-Resource Consulting, Inc. (ERC) is a multidisciplinary consulting firm offering a broad range of services in ecological and natural sciences. The staff at ERC provides diverse expertise in upland restoration, wildlife habitat, woodland management, wetland determination, delineation, mitigation, aquatic biology and ecological sustainability.

OUR VISION

Eco-Resource Consulting, Inc. (ERC) provides long-term solutions to achieve natural resource restoration and project sustainability. Our goal is to assist landowners and land managers in achieving their desired vision with scientifically guided methods. Our attention to detail is often the difference between a successful restoration and a restoration that is dominated by non-native or invasive species.
