PRODUCT NAME	8 CHANNEL PIPETTER											
MODEL	MVP50			MVP100			MVP200			MVP300		
Volume Range	5-50µl			10-100µl			20-200µl			50- 300µl		
Increment	0.5µl			1µl			1µl			5µl		
Test Volume	50	25	5	100	50	10	200	100	20	300	150	50
Accuracy % (±)	1.00	1.50	3.00	0.80	1.00	3.00	0.60	0.80	3.00	0.70	1.00	1.50
Precision % (≤)	0.50	1.00	2.00	0.15	0.40	1.50	0.15	0.30	1.00	0.25	0.50	0.80
Channel	8											
Tip type	Piston - universal style											
Dimension	275 × 75 × 45 mm											
Gross weight	250g											

A 8 Channel Pipette is a lab tool that allows you to handle eight samples at once, making tasks more efficient. It comes in different volume ranges, needs to be accurate and precise, should be comfortable to use, and compatible with your sample containers
