

Aircraft Acquisition & Sales Services - Performance Guaranteed

For more than 45 years, CCI has been a trusted leader in executive aircraft acquisition advisory services. Our experience, diverse capabilities, and comprehensive turnkey approach are fully aligned to support your next aircraft search and acquisition. With a proven track record in executive aircraft transactions, we are dedicated to helping you achieve your aviation objectives with confidence and precision.

Drawing on the collective expertise of our six U.S. and five international offices, CCI identifies the best aircraft to meet your specific mission requirements. We save you both money and time, while guiding you through the complexities and pitfalls that often accompany aircraft selection, contracting, pre-purchase inspections, technical negotiations, final inspection and test flight acceptance, and closing. Our advice and guidance helps you avoid costly pitfalls and ensures a disciplined, well-managed acquisition process.

Acquiring an executive aircraft—regardless of size—is a complex undertaking. CCI manages the entire process on your behalf, including comprehensive due diligence, contract negotiation, acquisition cost control, and seamless integration into your existing fleet. If a first aircraft, CCI will advise you on the establishment of a new flight operation. Our professional team is on site to oversee the pre-purchase inspection and test flight, ensuring your interests are protected at every stage.

CCI's advisory services are comprehensive, and results driven. Our professional experience, proven expertise, and worldwide network of industry relationships and resources provide a decisive advantage in your aircraft purchase. We have confidence we can meet all your objectives and therefore offer each client a 100% performance guarantee with every engagement. [Click here to hear from one of CCI's hundreds of clients.](#)
