

**We strive for a happy and healthy home for our puppies by starting them out right with a good quality food like Life abundance or Pro-Plan corn free food. All puppies are vet checked, vaccinated and dewormed at 8 weeks before going to their new homes. We do our best to socialize each puppy. Socializing your puppy is very important.**

**Your puppy needs to be vet checked by a veterinarian of your choice commensurate with your location or by Dr. Woods at Butler Veterinarian Clinic, in Valentine NE. You must have proof of all vet records.**

- 12 weeks
- 16 weeks
- 6 months
- One year old

**We offer a health guarantee up to one year of age if all vet checks have been done. We require you to feed [Life's Abundance](#) all stage dog food up to 6 months of age, unless there is a allergy, in that case a vet's documentation is needed. For the hip and elbow guarantee we must have records of the food you feed, preferably life abundance. It is very important that you feed food that has the same protein level as Life's Abundance, no greater than 26 percent, as this can cause your dog to grow too fast.**

**At 1 year of age you need to have hips and elbows X rayed by vet and sent to Butler vet clinic, if you want to move forward with a 2 yr hip and elbow guarantee. We reserve first rights to get your puppy back if at any time you need to re-home your puppy. After 6 months of age, no money back unless you can prove puppy is unhealthy. Due to a degenerative problem, which must be found by Dr. Wood, at Butler Vet Clinic.**

**We do not ship puppies but will meet you halfway for a fuel reimbursement.**

**A non-refundable deposit of \$200 will hold your puppy until pickup, in the case of death or injury or if they don't pass a vet check you can move your deposit to a different puppy, or it will be refunded, but only in those cases.**

**Any dog purchased for breeding purposes must not be bred until age 2, your dog is not done growing until then so should not be bred.**
