

24/7 Emergency Support with WellBe®

Say “Hello” to the WellBe® Medical Alert Watch

The WellBe® Medical Alert Watch provides added protection and security – **at-home and on-the-go**. 24/7 emergency monitoring in a sleek watch, with GPS real-time location and 2-way communication. Features include 4G connectivity, pedometer, heart rate sensor, water-resistant design, long battery life, and WellBe® Virtual Assistant. **Fall detection** – available for an additional monthly fee – enables your watch to automatically place a call for help when a hard fall is detected.

Features include:

- Mobile PERS (Personal Emergency Response System)
- Built-In Speaker & Lithium Battery
- Available 24/7/365
- Completely Secure
- Digital or Analog Watch Faces
and much more!

**Help is available
at the push of a
button – anytime,
anywhere.**

Improve Safety and Security

WellBe® Medical Alert Watch has a sleek, modern design with a large watch face for easy viewing that doesn't make you choose between style and security. WellBe® Medical Alert Watch uses GPS location and 4G connectivity to quickly locate you and send services in the event of an emergency call. Our dedicated U.S.-based call center is there to answer the call 24/7/365.
