Advanced Medical Alert, LLC
Personal Emergency Response System

1-888-311-3120
https://advancedmedicalalertllc.com/

What is it?

Compatible with landline and most VoIP telephone connections, this system integrates a two-way speaker and a small, lightweight help button that can be worn around the neck or on the wrist. The system provides clear communication with an emergency response operator.

Equipment included:
Base speaker and neck button or wrist button

How does it work?

When you need help, just press your button.

Your information is sent to the emergency response center. An emergency response operator connects you through the speaker on your device and decides on the proper action.

The operator sends the appropriate responder based on your needs - emergency services, caregiver, family member or neighbor.

Who is it for?

This simple system is perfect for older adults or individuals with medical conditions that leave them susceptible to accidents in their own home.

Users can take advantage of this extra level of protection to maintain their independence while living at home and providing peace of mind for their loved ones.

Landline System

AT-HOME SOLUTION
