- 6 Session Pkg: \$720 (20% Discount)

THE FACE SCULPT METHOD™
with Myofascial Release

This specialised treatment protocol developed and curated by Olivia Szmidt targets the connective tissues in your face to release face muscle tension, improve circulation and fix face asymmetry. This is a powerful face lifting massage technique that stimulates circulation in the face, encouraging cellular turnover, collagen production, eliminating spasm, tension or tightness and lymph blockages. This technique works on all of our facial muscles, which relaxes face muscles and drains excess fluid in the face that causes puffiness. By gently manipulating the fascia, we help to release tightness, reduce puffiness, and enhance your skin's natural elasticity for a smoother, more youthful appearance with focus on deep tissue face remodelling of the face, neck, chest and scalp. For best results a package of 5-6 treatment is advised in a 8 week window.

- Duration: 60 Minutes
- 1 Session: \$200
- 4 Session Pkg: \$720 (10% Discount)
- 6 Session Pkg: \$960 (20% Discount)
