SERENITY HILLS

IMPORTANT NOTICES

We are having an issue with someone turning on outdoor water faucets in empty lots. We suspect it is kids. This is wasting several thousands of gallons for our water system. If anyone has any information on who it is, please let us know. This type of activity will not be tolerated. We also have reports of kids throwing rocks on roofs and playing ding-dong-ditch.

Summer time is upon us! Please be careful driving through the park as kids might be playing outside more frequently when school is out. Please remember kids are not allowed to play around the mailboxes or by the water tower.

We are aware holes are forming on lots where the old septic tanks were located. We will be taping them off with yellow tape while we work with the county to fix the holes. Please use caution around the areas of the holes.

GENERAL INFO YOU NEED TO KNOW

Proposed community garage sale - Check insert.

SERENITY WATER

IMPORTANT NOTICES

We are still currently in a drought! We do not allow swimming pools or play sprinklers during a drought. - No exceptions.
