

IMPORTANT WATER MESSAGE

SEPTEMBER 19, 2023

We will be making repairs to the water system Wednesday, September 20, 2023. Water may be unavailable between 7:30am to 6pm. We will be repairing leaks on the left side of the Park and Elm Pass. We will be trying to isolate the leaks. Water may be available on certain streets and may be intermittent. We will try to have all the leaks repaired on Wednesday. However, the repairs might go into Thursday. In the event it takes both days to do the repairs, we will have water turned back on for everyone Wednesday night and water will go back off Thursday morning to finish repairs.

Please notify us via text or email Wednesday and Thursday night if you do not have water back on after 7pm. We appreciate everyone's understanding and patience as we deal with the leaks. Check out our website (serenityhillsrealestate.com) for water updates and important info going on around the Park.

Thanks,

Taylor Simmons
