THE IKON STORY

About the Institute

It's been a long 30 years of journey & I come across many milestones. By the grace of God, blessings of my parents & well-wishers, I have successfully developed an institute where students can enjoy their academic as well as professional courses freely in a motivated way. The courses that are run by the institute are uniquely designed. Our newly launched website is a right step towards further development. I always share the golden moments of my professional life with those of my students equally bright in their career. Moreover, the Guardians have played a significant role in constituting a healthy atmosphere for my institute. In the coming days too, I am ready to face more challenges. I hope students will play a better role to have a vibrant & prosperous Institute.

— The Proprietor, Mr. Indranil Pathak
