5 Mistakes That Could Wreck Your Rig (And How to Avoid Them)

By: GPS In The Cab

“Keep your rig, records, and revenue between the lines.”

The 5 Red Flags

Red Flag #1: Your Agent Only Calls at Renewal

If the only time you hear from them is when your policy's due, you're not protected — you're just a transaction.

Red Flag #2: You're Chasing the Cheapest Price

Low quotes often mean high-risk coverage gaps. You don't want to find that out when DOT or a claims adjuster is knocking.

Red Flag #3: No Risk Review or Policy Walkthrough

A real insurance partner should explain your policy like a road map — not just email you a PDF.

Red Flag #4: No Support When Things Go Sideways

If your agent's nowhere to be found during a claim, inspection, or audit... you're riding solo at the worst time.

Red Flag #5: Misleading Info to Get a Lower Rate

Cutting corners or “fudging” numbers might get you a quote — but it won't get you paid when you file a claim.
