AMB-Gnd-8W

AMB-Gnd-Hdwr

HF Shunt Load Inductor Coil

SHUNT100 – Weatherproof, Adjustable HF Inductor

SHUNT-100

My entry took first place among 15 contestants. Second and third were identical construction type, and fourth was another field. There will be a future report on our club website soon. Since I will be writing it, I'll let you when it's ready. There will be many other pictures as well, and I'll attach those if they are internet ready.
Thank you for getting me the parts so fast. I had 100% chance to have the adjust installed and working as well as such a short time.
Regards,
Tom AA1Z
