

Aunt Claire's Pet Care to be published by Fawkes Press

I am extremely excited to announce that the entire Aunt Claire's Pet Care series has been acquired by Fawkes Press! This is a contemporary middle grade series perfect for animal lovers and budding scientists. It is good fit for fans of MRS. SMITH'S SPY SCHOOL FOR GIRLS and THE MISCALCULATIONS OF LIGHTENING GIRL. This manuscript is the product of 2017 National Novel Writing Month.

About the series:

When two sisters are orphaned, they move to a small town with their veterinarian aunt and take on various chores at her clinic with a cast of quirky animals. Too bad Isabel, the computer genius, and Maya, the athlete, fight worse than the cats and dogs. Little do they know their sisterhood will be tested like never before. Aunt Claire has a big secret – she's involved in complex genetic engineering research, and someone is after her work. While Aunt Claire is altering service animals to enhance their assistance skills, her rival, Dr. Rodriguez, is out to create soldier-like animals that he can sell to the highest bidder. When Aunt Claire is kidnapped, and her animals are stolen, the girls must work together to save her. But doing so could expose her research to the world and allow the data to fall into Dr. Rodriguez's very dangerous hands.

Book release dates:

The books will be released as follows:

Book One: October 31, 2023 - Book Two: February 5, 2024 - Book Three: June 14, 2024

I will be sure to send out additional information regarding where and when the books can be purchased and when pre-sales are available!

How to support your favorite authors!

I thought I would share two easy things that can go a long way in supporting any authors you love! I'll ask you to do them for me when available, but they're good universal tips!

1. Pre-order books! Pre-orders are a big deal for authors and book sellers. Pre-orders show bookstores that a book will be in high demand and that they should stock it.
2. Leave reviews! Books with more reviews show up more frequently in search engines. After you read a book, leave reviews everywhere you can to help that author get exposure!
