

TAJIK NATIONAL UNIVERSITY

1948

TAJIKISTAN

The Land of Mountains and Heritage

Capital: Dushanbe

Currency: Tajikistani Somoni (TJS)

Highest Peak: Ismoil Somoni Peak (7,495 m)

Official Language: Tajik

Key Exports: Aluminum, cotton, hydropower

Geography & Climate

Tajikistan is a mountainous, landlocked country in Central Asia, with over 90% of its land covered by mountains. The Pamir Mountains, known as the "Roof of the World," dominate the landscape. Major rivers like Amu Darya and Syr Darya provide water to the region. The climate is continental, with hot summers and cold winters, especially in high-altitude areas.

History & Heritage

Once part of the Persian Empire, Tajikistan was a key Silk Road hub. Alexander the Great, the Mongols, and later the Soviet Union influenced its history. The country gained independence in 1991 but retains strong Persian cultural roots, celebrating traditions like Nowruz and honoring scholars like Avicenna.

People & Culture

Tajikistan has 10 million people, mostly Tajiks (85%), with Uzbeks, Kyrgyz, and Russians as minorities. Tajik (a Persian language) is the official language, while Russian is widely used. Islam is the dominant religion, and Tajiks are known for their warm hospitality. Traditional clothing features colorful embroidered dresses and robes (joma) with skullcaps (tubeteika).

Economy & Development

Tajikistan relies on agriculture (cotton, wheat), mining (gold, silver, uranium), and hydropower. Many citizens work abroad, especially in Russia, sending back remittances that support the economy. Infrastructure and healthcare are still developing.

Tourism & Attractions

Tajikistan is a paradise for nature lovers:

Pamir Highway – One of the world's highest-altitude roads.

Iskanderkul Lake – A stunning alpine lake named after Alexander the Great.

Fann Mountains – A trekking hotspot with crystal-clear lakes.

Hissar Fortress – A historical site over 2,500 years old.

DUSHANBE

The Heart of Tajikistan

Nestled in the foothills of the majestic Pamir Mountains, Dushanbe is a vibrant blend of history, culture, and modernity. As the capital of Tajikistan, it boasts grand boulevards, lush parks, and stunning Soviet-era architecture alongside contemporary developments. Visitors can explore the iconic Rudaki Park, the towering Flagpole of Dushanbe, and the rich heritage displayed in the National Museum of Tajikistan. A city of warm hospitality, colorful bazaars, and mouthwatering cuisine, Dushanbe offers a unique experience where tradition meets progress.

People & Culture:

Dushanbe is home to hospitable and friendly people who take pride in their rich heritage. The city reflects a blend of Persian, Soviet, and Central Asian influences, evident in its architecture, music, and festivals. Traditional music and dance, such as the Falak and Lazgi, are an integral part of celebrations. The hospitality of the Tajik people makes every visitor feel welcomed, adding to the charm of this dynamic capital.

Connectivity:

Dushanbe is well-connected with an international airport linking it to major global destinations. The city has a reliable network of roads, taxis, and public transport, making travel convenient. Modern highways connect Dushanbe to other regions of Tajikistan, including the scenic Pamir Highway, one of the world's most breathtaking routes.

International Collaboration

360 Cooperation Agreement with Foreign University

The development of international scientific and educational relations, an increase in the number and expansion of the geography of foreign students and, in general, the adoption of effective efforts in the internationalization of education and science is one of the main priorities of the university. Over the past 5 years, (2016–2020) TNU has concluded cooperation agreements and memorandums of understanding with 186 universities and research centers of foreign countries, while the total number of foreign partners is 289 units.

International activity in recent years has become one of the important areas of work of the university. Conducting joint research, implementing joint educational programs for bachelor's and master's degrees, and in general, diversified interuniversity cooperation with foreign partners has a steady dynamic of expansion and deepening. TNU has partnerships with such leading universities in the world as:

- ✓ **University of Porto (Portugal)**
- ✓ **University Paris 1 Pantheon Sorbonne (France)**
- ✓ **Masaryk University (Czech Republic)**
- ✓ **Philips University Marburg (Germany)**
- ✓ **Jagiellonian University (Poland), etc.**

Diplomatic Relations India & Tajikistan

The bilateral relations between the Republic of India and the Republic of Tajikistan have developed considerably owing to both nations' co-operation on security and strategic issues. India has set up its first overseas military base Farkhor in Tajikistan. India also assisted in building Ayni hospital.

Why Choose

Tajik National University–Faculty of Medicine?

A Premier Destination for Aspiring Doctors

Tajik National University (TNU) stands as the most prestigious and oldest university in Tajikistan, offering an unparalleled medical education that blends rigorous academics with hands-on clinical training. If you dream of becoming a skilled and confident doctor, TNU's Faculty of Medicine provides the perfect foundation.

World-Class Clinical Training in Affiliated Hospitals

At TNU, medical students don't just learn from books – they experience real-world medicine in some of the largest and most advanced hospitals in Tajikistan. The university has strong affiliations with multi-specialty hospitals, including:

These hospitals provide students with early patient exposure, advanced surgical training, and hands-on practice in cutting-edge medical technologies. From the first year itself, students actively observe and assist doctors, bridging the gap between theoretical knowledge and real-life practice.

Tajikistan Republican Clinical Hospital – A state of the-art hospital with advanced ICUs, surgical units, and diagnostic labs.

Dushanbe City Clinical Hospital – A state of the-art hospital with advanced ICUs, surgical units, and diagnostic labs.

National Research Center for Cardiovascular Diseases – Giving students direct experience with cardiac treatments and advanced surgical procedures.

Highly Qualified & Experienced Faculty

TNU takes pride in its team of renowned professors, experienced doctors, and medical researchers who are dedicated to shaping future healthcare leaders. Many faculty members are internationally trained, ensuring students gain insights into global medical practices.

Students benefit from:

- ✔ *Small group learning with personalized mentorship*
- ✔ *Interactive case discussions to sharpen diagnostic skills*
- ✔ *Workshops and live demonstrations on the latest medical advancements*

Comprehensive Anatomy Labs with Real Cadavers

Understanding human anatomy is fundamental for any medical student, and at TNU, learning goes beyond textbooks. The university provides real human cadavers for dissection, allowing students to gain a deep, hands-on understanding of human anatomy. Unlike many universities that rely only on plastic models, TNU ensures true-to-life anatomical learning, which gives students an edge in practical knowledge and surgical precision.

Modern Facilities & Advanced Medical Equipment

TNU's medical faculty is equipped with:

State-of-the-art simulation labs – Practice critical medical procedures in a controlled, high-tech environment.

3D virtual anatomy rooms – Visualize and interact with human body structures using modern technology.

Well-equipped research centers – Get involved in groundbreaking medical research under expert guidance.

International Exposure & Career Prospects

TNU medical graduates are recognized worldwide and eligible for licensing exams such as USMLE, PLAB, and FMGE.

The university offers exchange programs and internships in international hospitals, giving students global exposure.

With English-medium education, international students feel at home while receiving a top-quality education.

Cultural Exchange with Ambassador H.E. Mr. Rajesh Uike at Tajik National University

Ambassador H.E. Mr. Rajesh Uike visited Tajik National University to engage with students through cultural activities. During his visit, the Ambassador shared insights into India's rich cultural heritage and emphasized the importance of fostering international friendships. He expressed appreciation for the diverse traditions and values that both India and Tajikistan share, highlighting the role of education and cultural exchange in strengthening bilateral relations.

The event provided an opportunity for students to engage in meaningful conversations with the Ambassador, deepening their understanding of India's cultural contributions while also exploring ways to further enhance collaboration between the two nations. The visit was a significant step in promoting mutual respect and understanding among the youth of India and Tajikistan.

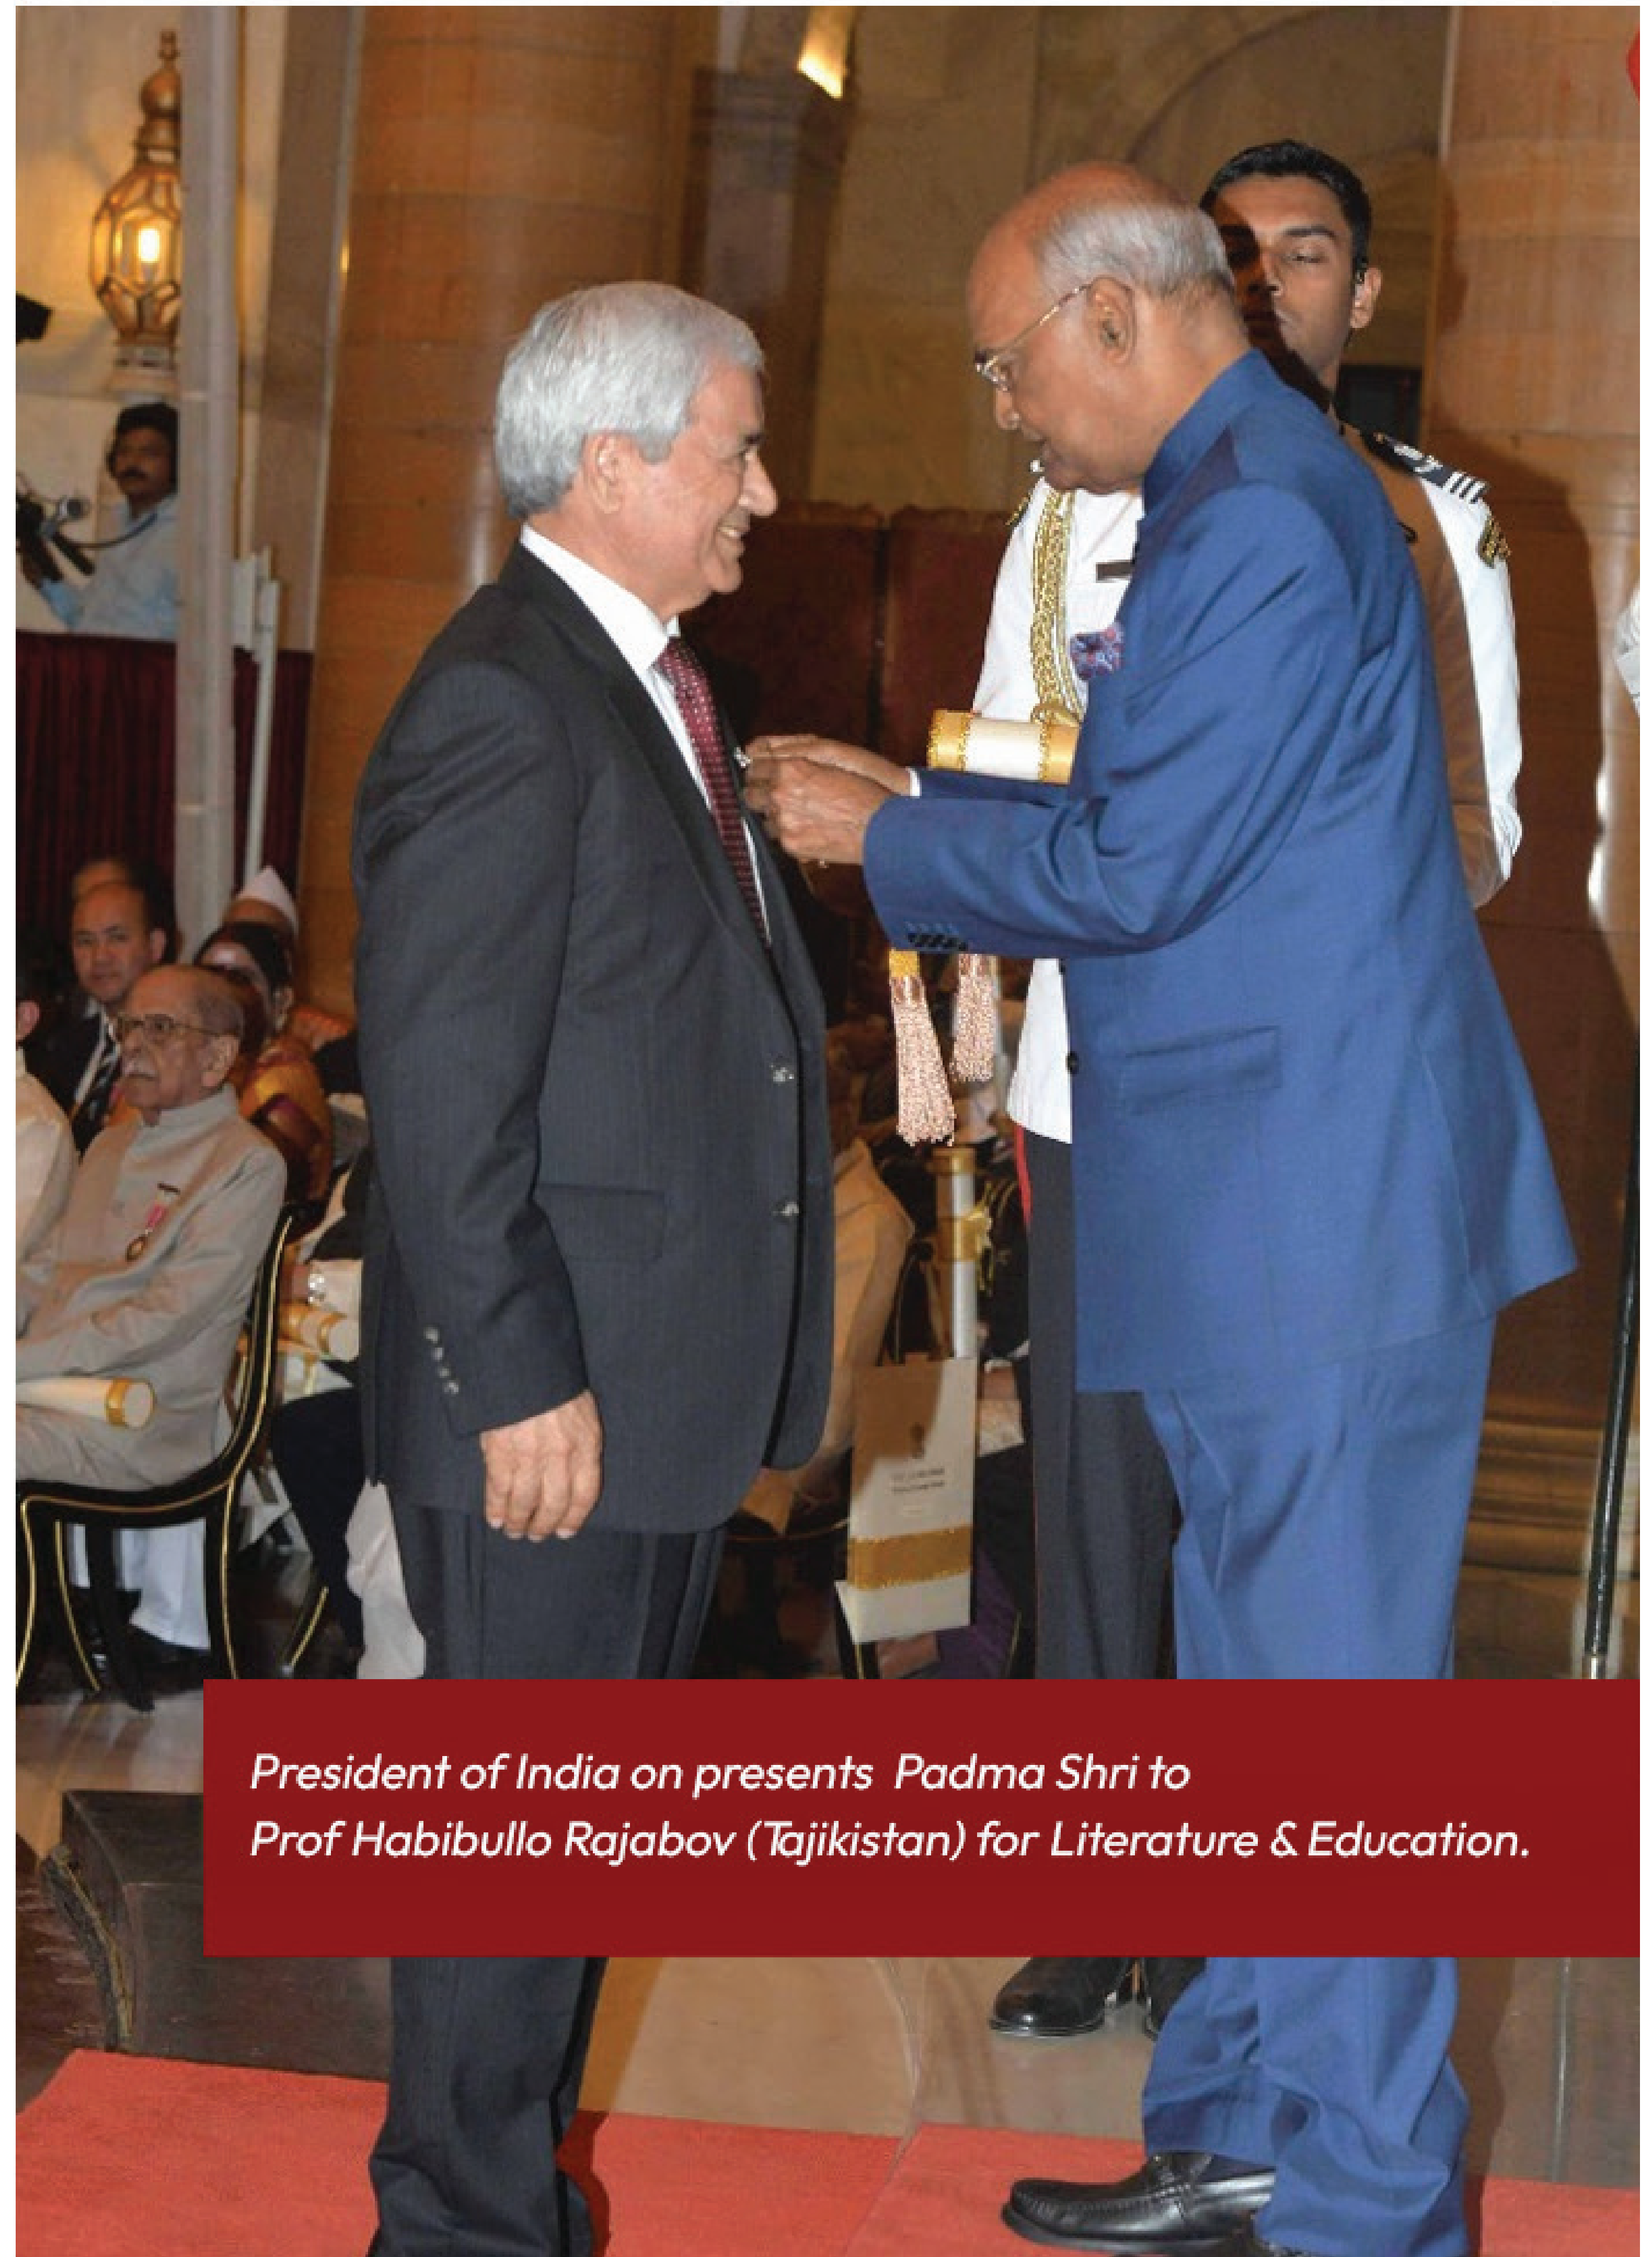

Padma Shri Prof. Habibullo Rajbov Engages with Indian Students in an Insightful Discussion

Padma Shri Prof. Habibullo Rajbov, a renowned Indologist from Tajikistan, recently met with Indian students, fostering an engaging and insightful discussion. The interaction was marked by warmth and effective communication, reflecting the university's commitment to academic excellence and international collaboration.

During the session, Prof. Rajbov addressed the students, acknowledging their aspirations and encouraging them to make the most of their educational journey at TNU. He emphasized the strong academic ties between India and Tajikistan and reassured students of the university's continuous support in shaping their future.

The meeting concluded on a positive note, with students feeling more connected and motivated. This initiative further strengthens the bridge between Indian students and the Tajik academic community, reinforcing TNU as a preferred destination for quality education abroad.

President of India on presents Padma Shri to Prof Habibullo Rajabov (Tajikistan) for Literature & Education.
