

🌟 Customer Spotlight: Anne & Justin

Transforming Two Homes, One Vision at a Time

Working with Anne and Justin is an incredible experience. We've had the privilege of helping them bring their vision to life in *not just one, but two* of their beautiful homes. From simple upgrades like replacing lights to full-scale whole-home painting and detailed remodels, every project has been a chance to create something special.

We've included some photos of the before-and-after transformations—some showing complete remodels, others highlighting fresh paint and finishing touches. Even when we didn't have "before" photos, the results speak for themselves.

What truly makes this spotlight meaningful are the amazing reviews Anne and Justin shared about their experience. Their trust, enthusiasm, and continued partnership mean the world to us.

And the best part? **The work continues in both of their homes—so there's more to come.**

We are beyond thankful for the opportunity to help bring their ideas to life, one project at a time. Stay tuned for more updates, more transformations, and more of their vision becoming reality.

Jimmy is making big progress as his work remains steady and we keep adding more jobs to his list to make our forever home ready and safe for our future. We had him replace a very unsteady banister with this 4' wall ensuring playful kids don't fall over. It is perfect and the top is perfect! We are enjoying our daily meetings with him and are rounding the corner to finishing touches! We are beyond grateful for his hard work and attention to detail!
