RUN LOLA RUN

NFTs by MovieShots

Run Lola Run is coming to **Dutch Blockchain Week** as Digital Collectibles Created by **MovieShots**. Curated by **Turboslow Agency** at **SheNFT Netherlands Exhibition** on 26.11.2022

⋮ **LOLA RENNT** 1998 ⋮

The origin of film meets the age of the future. The Austrian startup MovieShots and Belgian Turboslow NFT Agency collaborates for film lovers to own a part of Run Lola Run as a unique collector's item in NFTs at SheNFT Netherlands organized by Metasouls.co.

The MovieShots Team has managed to bring the legendary iconic experimental German thriller "Run Lola Run" NFTs which will be taking part in the blockchain world.

Starting on Nov. 26th, the curtain will rise on 1401 exclusive 'Run Lola Run' NFTs at SheNFT Exhibition and Web3 Conference in Haarlem, Netherlands.

In total, all 1401 collectibles will represent the film from the first seconds to the final credits.

Atil Altas, Co-founder of Turboslow NFT Agency and Jan Leitenbacher, Co-founder of Moviestats.io, both entrepreneurs come from movie production and blockchain background, have been told that ‘We are very excited to have this collaboration in Dutch Blockchain Week at SheNFT Netherlands Exhibition.

The visitors will have a chance to connect the next generation of the media industry, powered by blockchain and digital communities. Very proud to bring a masterpiece like ‘Run Lola Run’ to a new medium for a new generation.’

LOLA RENNT 1998

The narrative form of Run Lola Run is, in essence, a fairytale, but with the gender roles switched.

The film is still understandable by many cultures as a love story, but now that the hero is a woman and the damsel in distress is a man, it challenges the dominant gender ideology.

In the final segment, the 'happy ending' is one in which gender conflict is largely avoided altogether.

This ending, the idea of peace and equality between the genders, becomes acceptable to most viewers and therefore spreads the message of gender equality which is one of the missions of SheNFT Netherlands.

LOLA RENNT 1998

The dream of owning a piece of movie history turns into reality by [Movieshots.io](https://www.movieshots.io)

Run Lola Run is an astonishing cinematic experience, that doesn't stop when you start analysing every edit of the movie.

The use of a wide range of movie techniques such as fast-edited flash forwards, which tell their own story within a very short time, make this cinematically innovative movie, which does not adhere to narrative standards.
