

AI STRATEGIES FOR TALENT NEW YORK H2 2025

Putting AI and Talent Together for a Brighter Future, over Dinner

Wednesday 12th November, 2025

The Capital Grille, 120 Broadway, NY 10271

Start: 5:45pm | Finish: 8:00pm

Format: Private Dining, 3-Course

In partnership with:

Geoffrey Hinton, the 'Godfather of AI' and 2024 Nobel Laureate shared a compelling vision during our chat with him:

"If we can get a symbiosis between people and AI, AI is going to make the world much more interesting for people...HR leaders have an unprecedented chance to steer AI towards meaningful human alignment"

See the full interview [here](#)

"Leaders lounge is like a retreat for the mind. There are few spaces where I can completely unplug and dive headfirst into my own learning and growth. It's more important now than ever for HR professionals to be exposed to industry trends outside our expertise and hear from the thought leaders moving our profession forward. This is a can't miss, must attend event. I count down the days to each session and look forward to seeing what I can take away and implement the next day I return to the office."

- Stephen Grove, VP DEI at Blackstone

You're invited to unpack and rebuild together in New York over Dinner:

Since 2017, we bring together the sharpest VP-to-C-level minds in HR, Talent, and Leadership from across the globe. We've dissected over 200 exclusive C-suite interviews bi-annually, stripped the ideas down to their core, and rebuilt them into bold, actionable strategies in regional groups of leading employers **together**.

This is our way of helping you to reshape employee experience and influence the future of work for your enterprise.

Main Points of Discussion:

1. AI Adoption Without Attrition: How do we integrate AI into workflows to enhance trust, engagement, and retention?
2. Upskilling for an AI-Augmented Workforce: What frameworks are proving effective for reskilling at scale, and how do we measure ROI beyond completion rates? Case studies from Coca-Cola, Prudential, AGCO, and Nestle will be shared with you.
3. Benefits & Wellbeing in the Age of AI: How should benefits and wellbeing programs evolve to meet the needs of a tech-augmented, continuously learning workforce?
4. 2026 Readiness & Competitive Positioning: What AI-talent strategies must be in place before next year's budget cycle to ensure talent market leadership?
