

This is a brief overview of the controls of my car (Vauxhall Corsa SRi). It includes one or two points about core controls. Mainly it is intended as a reference for the ancillary controls.

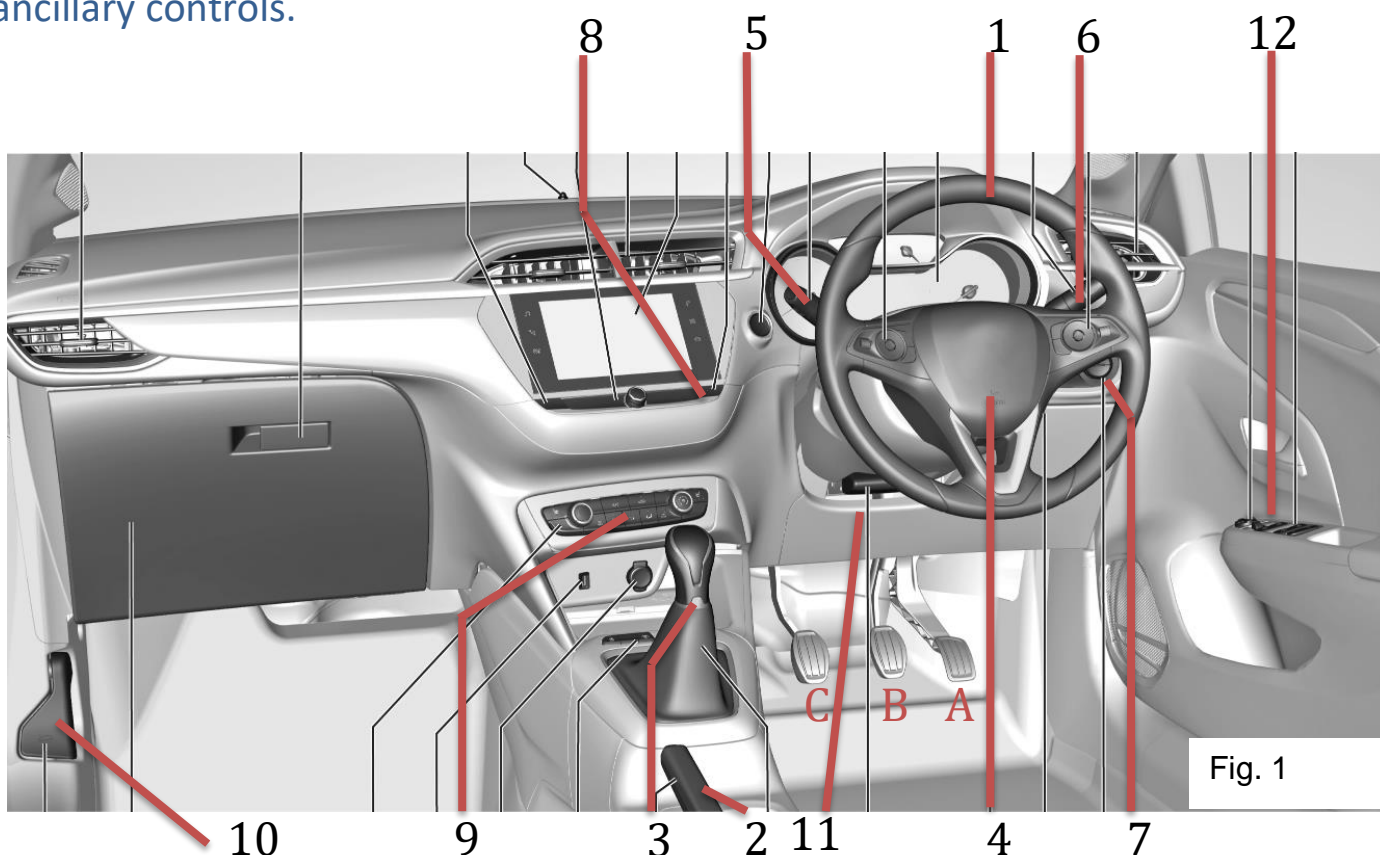

Fig. 1

A – Accelerator

B – Brake

C – clutch

- | | | | |
|---|--------------------------------|----|--|
| 1 | Steering wheel | 7 | Exterior lighting switch |
| 2 | Hand brake / parking brake | 8 | Hazard warning switch |
| 3 | Gear lever | 9 | Air conditioning and demister controls |
| 4 | Horn | 10 | Bonnet release lever |
| 5 | Indicator stalk / lever | 11 | Steering column release lever |
| 6 | Windscreen wiper control stalk | 12 | Door mirror adjustment controls |

Gear selector

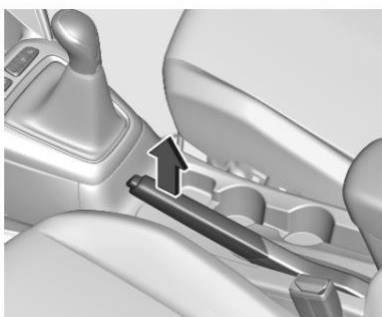

Parking brake

⚠ Warning

Before leaving the vehicle, check parking brake status. Control indicator (P) illuminate constantly when electric parking brake is applied.

Manual parking brake

⚠ Warning

Always apply parking brake firmly without operating the release button, and apply as firmly as possible on a downhill or uphill slope.

To release the parking brake, pull the lever up slightly, press the release button and fully lower the lever.

To reduce the operating forces of the parking brake, depress the foot brake at the same time.

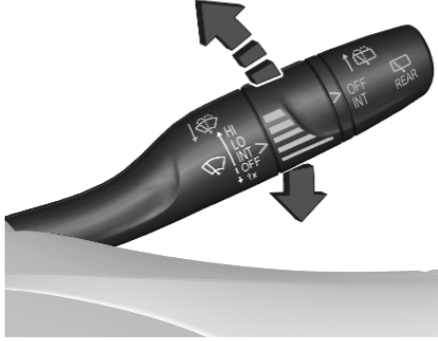

Control indicator (P) → 70.

Front windscreen wiper and washer

(Fig 1 No 6)

Windscreen wiper and washer

Windscreen wiper with adjustable wiper interval

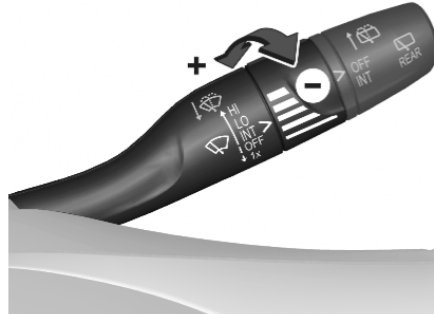

HI : fast
LO : slow
INT : interval wiping
OFF : off
1x : single wipe

Do not use if the windscreen is frozen.
Switch off in car washes.

To activate interval wiping mode the next time ignition is switched on, press the lever downwards to position OFF and back to INT.

Adjustable wiper interval

Wiper lever in position INT.
Turn the adjuster wheel to adjust the desired wipe interval.

Windscreen washer

Pull lever. Washer fluid is sprayed onto the windscreen and the wiper wipes a few times.

Rear windscreen wiper and washer

Rear window wiper and washer

Rear window wiper

OFF : off
INT : intermittent operation

Do not use if the rear window is frozen.
Switch off in car washes.

The rear window wiper comes on automatically when the windscreen wiper is switched on and reverse gear is engaged.

Activation or deactivation of this function can be changed in the Vehicle personalisation menu ↻ 80.

Rear window washer

Push lever.
Washer fluid is sprayed onto the rear window and the wiper wipes a few times.
Washer fluid ↻ 190.

Lights – side & dipped (Fig 1 No 7)

AUTO : automatic light control switches automatically between daytime running light and headlight
☞☞ : sidelights
☞D : headlights

NB Sidelights have limited practical use. If you need lights on to drive (at night or raining) you need dipped headlights.

Lights – main beam (Fig 1 No 5)

Main (high) beam control on indicator stalk

Pull to flash
Push to switch on & off (dipped headlights need to be on).

Fog lights (Fig 1 No 7)

Front

Rear

Side lights

Tail lights

Rear fog light

Dipped headlights

Brake lights

Front fog lights

Main beam

Air conditioning and demisters

(Fig 1 No 9)

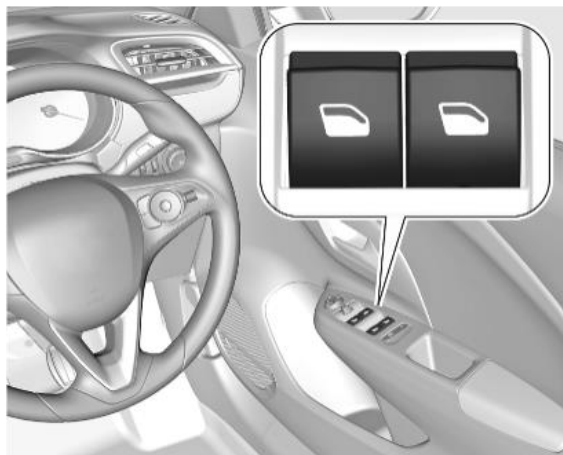

Power windows

(Fig 1 No 12)

Operate relevant switch

Small press/pull – open/close small amount

Full press/pull & release – open/close fully

Power windows

Deactivate rear door window switches
