

Kansas Winger

KANSAS DISTRICT NEWS

Welcome to the Kansas Winger, a monthly publication comprised of articles from Chapter Editors and our District Team.

Check out what Chapter members have been up to and see what fun events are coming up.

GWRRA members are members of all Chapters and are encouraged to attend any Chapter gathering and participate in any Chapter events.

Gold Wing Road Riders Association is all about
"FUN, SAFETY AND KNOWLEDGE"

Contributing Editors:

A message from your Kansas District Directors

Everyone is back from Wing Ding safely, the only casualties were some of our wallets. Debbie and I had a wonderful time cruising the vendors and meeting new and old friends. It was great seeing so many Kansas folks there, all seemingly having a good time. The Light Show that Kansas had responsibility for, went off with only a minor glitch or two, and was very successful. Thank you so very much to our volunteer group. The lessons we learned were forwarded to the appropriate level and hopefully next years event will profit because of them. Debbie is already looking forward to Shreveport.

The District Team met on July 17th to nail down the schedule for our District Rally on Sept 10th and 11th. We all think the schedule has a good balance of events along with plenty of time to explore the Independence area which offers many attractions. The city has definitely gone the extra mile for us and truly want us there. Let's all show them our appreciation with a large turnout.

The Team also roughed out plans for the District Campout scheduled for October 1st and 2nd at Council Grove Lake's Santa Fe Trail Cove. It will be a fun time again, I'm sure, with fun activities and good food. We always look forward to this event, and yes, the tarps will be there. Although, I'm beginning to wonder if having them there is what's bringing the cold weather? Hmmm.

We're looking forward to seeing all of you down the road.

A WORD FROM YOUR DISTRICT RIDER EDUCATORS

It is August already. This year has gone rapidly. It is almost time for the Kansas District Rally in Independence, KS on September 10th and 11th. Your Rider Education Team will be presenting some seminars on both Friday and Saturday. Please take the time to join us for one or both of these seminars.

We will also have the American Trucking Association No-Zone Team with their truck set up. We had the No-Zone Truck at the rally in Salina a couple of years ago and it was a great success. Please take the time to visit this exhibit because it is really informative.

For the Level IV Tour Riders in the group, we will not be having a Level IV Master's breakfast but we will host a Master's meeting on Saturday morning. All Master Tour riders are welcome to attend. We will have some refreshments.

I hope that everyone is having a wonderful summer and have been out riding some.

Whether it is warmer weather welcoming busier roads or the hustle of holiday travel, it's an important reminder for everyone – both riders and drivers – to take their road safety seriously not just this summer, but all year long. Below, we've laid out the five most common motorcycle issues so you can ride safely and smartly.

1. **Tire Wear.** Worn tires lose their ability to perform at peak levels and are an unavoidable common motorcycle issue. But recognizing how quickly your bike's tires are wearing and what is causing it can help you get the most out of each tire. Premature tire wear is usually caused by improper tire pressure when you ride. Keep an eye on your bike's tire wear indicator (TWI), usually located on the sidewall, for a signal that it's time for your tire to be replaced.
2. **Dirt and Debris.** The collection of dirt and debris in the interior of your bike is one of the most common motorcycle problems that can cause it to run inefficiently. Be sure to check your maintenance manual and follow the specific instructions on how and how often to clean certain areas on your bike before and after you ride.
3. **Fuel System Failure.** Many motorcycles have carburetors, while others are fuel-injected. The hoses that run to and from these units can dry out, crack, or fail. To prevent this, you must regularly inspect them and replace when necessary.
4. **Uncharged Batteries.** Taking care of your bike's battery is one of the easier checkmarks on your motorcycle maintenance to-do list. Unfortunately, that's also why it's so often overlooked. Remember to keep your bike's battery clean and charged. It goes a long way towards an extended battery life and preventing an inconvenient breakdown.

Your motorcycle helmet has a big job to do, and high-quality ones can do it all! Not only do helmets protect you in the event of a motorcycle crash, but they also shield your face from bugs and debris, insulate your head from the weather, and can even help protect your hearing. As one of the most vital (and likely most expensive) pieces of motorcycle protective gear you'll own, it's important to take care of your helmet. Knowing how to properly clean and care for your helmet will not only keep things comfortable during your next motorcycle ride but at times can even extend its lifetime. Now is a perfect time to give your DOT approved helmet a little TLC!

GETTING STARTED

Before getting started on your deep clean, it's important to have the right tools for the job. You'll need towels, a soft brush to clean small areas a towel can't reach, a gentle non-petroleum-based cleaning agent, warm water, and if you have access, compressed air. Be sure to remove any electronics and exterior accessories from your motorcycle helmet, as well as the face shield, interior liner, and pads if possible.

INTERIOR MOTORCYCLE HELMET CARE

The interior of your helmet comes into direct contact with your face, causing oil and sweat to build up. It's important to regularly clean your helmet pads and liners to remove dirt and grime with gentle soap, like mild laundry detergent or baby shampoo. Wash the liner and pads on a delicate cycle or if you prefer to hand wash them, soak them in a bucket of soapy warm water and be sure to rinse them well to remove all soap residue. Let the liner and padding completely dry before placing it back into your clean motorcycle helmet. If your helmet doesn't have a removable liner, cleaning can be a little more complicated, but still possible. Apply soap to the interior of your helmet and gently wash and rinse the padding and liner by dunking your helmet in a bucket of warm water.

EXTERIOR MOTORCYCLE HELMET CARE

To keep the shell of your helmet in tip-top shape, start by soaking a towel in warm, soapy water to wrap around the exterior of the helmet for a few minutes. This will gently loosen dirt and debris without the need to scrub which can scratch the shell. Once debris on the shell is soft, gently rub it away with soap and water without applying too much pressure. Use a small, soft-bristled brush or toothbrush to clean vents and other areas that you can't reach with a towel. Once your helmet is clean, wipe away any soap residue and dry the exterior with a clean towel. Apply detailing polish and wax to restore shine and add a protective coating. Wipe down your visor with a microfiber towel and warm water or a gentle plastic cleaner if necessary. Reinstall your visor if it was removed.

DO'S AND DON'TS

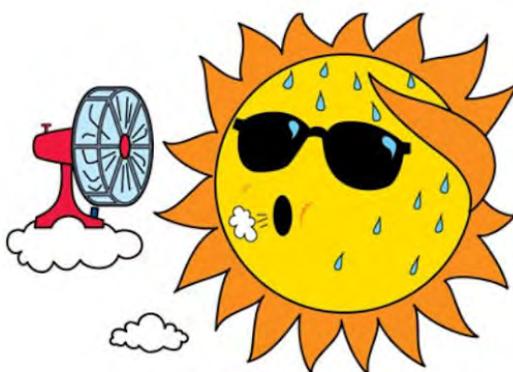

While your motorcycle helmet is designed to take a heavy beating, it's important to be gentle when it comes to cleaning and caring for it. Always use mild soaps and soft microfiber towels, and let warm water do most of the work loosening dirt and debris. Don't scrub the shell or visor, and stay away from harsh chemicals or any ammonia-based cleaners that tend to break down the helmet over time. Avoid putting liners in the dryer, and always allow your helmet to completely air dry, without any heat source, before storing or using it.

The two most important things to remember about your helmet.

1. Your helmet is the most important piece of your safety gear.
2. The best helmet for you is the helmet that you will wear.

**Remember that Practice Makes Permanent,
You are what you practice!!**

We are on our way home from Wing Ding 42, (the international Goldwing Road Riders Association –GWRRA rally) located in Springfield Missouri. One more year without me winning the brand-new Goldwing motorcycle. I swear, for the past several years, the winner has acted like they were awakened from a deep sleep when their name/number was called. I guess if that's what it takes to win, I never will! I can show folks how to respond when they win something like that! All my friends say that if I had saved all the money I have spent buying tickets, I'd have the money to buy a new bike by now. Well, you can't say I don't support the rally.

I thought I'd have a better chance of winning this year, as the attendance was expected to be lower due to covid recovery. There were 4029 registered this year. I remember the days of 14,000 registrants. Maybe we'll get there again. Even though a few still wore masks, there was a general feeling of freedom, as motorcycle rallies like everything else had been on hold for what seemed like forever. All 4029 must have showed up for the parade and bike show, however. The parade ended at Battlefield Mall, where the Central Florida Drill Team was ready to dazzle the crowd with their breathtaking performance, preceded by the flag presentation by yours truly, The Kansas Twisters. The Twisters have not been on the range for more than two years due to surgeries and COVID-19. Even though it was a short, simple program, it sure felt good to perform again, and to see and be encouraged by our extended drill team family.

It was great to see Ray and Sandy Garris again. I remember meeting them for the first time at a BBQ supper at the Josie Ranch in Marshall, Texas. It must have been approximately 2012. We were sitting across from them at the same picnic table. I noticed a patch on his vest about the Arizona Motorcycle Drill Team, and started talking to him, and asking for pointers as the Kansas Twisters Drill Team were just forming. Soon, our whole team surrounded Ray, and he was having a grand time talking about what he loves best. It was much later that we discovered that he and Sandy were the GWRRA National Directors.

Steve and I doubled our vacation fun. We hauled our bikes behind our motor home. (That wasn't the fun part.) We stayed in a campground in Strafford, about 30 minutes from the rally. So, we got to camp, and ride. We arrived Monday, so Tuesday we took a self-guided ride along Hwy 125. It was beautiful. We returned to the campground, and I spent the rest of the afternoon in the pool. I enjoyed myself so much, I forgot all about the opening party! But we did enjoy the dinner and RatPack show Wednesday evening. The campground sponsored a wonderful fireworks show Saturday night. Riding, camping, fireworks, and most of all, visiting with friends again—what's not to love?!

Chapter Couple of the Year

Bob & Audrey Savner

Several Chapter B members went to Wing Ding in Springfield, MO this past month. Gary and Reba Ohler, Frances and Joyce Dalsing, and Mick Schurer and Leslie Thompson all stayed in an airbnb in Pleasant Hope, MO, which they shared with two miniature donkeys. The donkeys were sharing the grounds, not the house. ??

The guys rode into Arkansas on Friday morning, the first rain free day, and then helped with the light show later that day. It seemed that there were fewer vendors and many of the rides were cancelled due to the heavy rains. COVID seemed to also still be playing a role in keeping people away.

There was a stop at the Osceola Cheese Company on the way home as well as throwing rolls at Lambert's. It was a pleasant trip and good time seeing old and new friends.

Joe and Debbie Gattenby attended the monthly meeting on July 15. They presented certificates to Gary, Frances, and Mick for helping at Wing Ding. It was just one day after National Macaroni and Cheese Day, so the trivia pertained to mac and cheese. Legend has it that President Thomas Jefferson discovered macaroni and cheese while on a trip to Italy. He hired a cook to fix it for White House dinners in 1802 and it has been popular in the United States ever since. Even though the Jeffersons served macaroni and cheese made with Parmesan cheese, Americans prefer cheddar and that is the main cheese used today when making the dish. The production of macaroni and cheese was greatly increased during the Great Depression. In 1937, Kraft boxed macaroni and cheese came out with the promise that buyers could feed a family of four for only 19 cents, which led Kraft to become the leader in American food companies.

The blackberries are ripening, and it was time for Chapter B's annual trip to the blackberry patch in Louisburg. Mick Schurer led the group to Louisburg on July 24th for breakfast at Miss B's Café. Fourteen members enjoyed the food and comradery. It was a hot day so only six people ventured on to Cy Aiken's blackberry patch to pick or purchase prepicked berries. The berries are sweet this year and this editor is hoping to get back to pick some more before the season ends.

CHAPTER B EVENTS FOR AUGUST:

It has been a good summer so far. WingDing was well attended by Kansas members and it was a good event to be a part of. The Kansas Twisters did not perform, but were there for the flag presentation. Then the Florida drill team went through the paces with an amazing drill team performance. That team practices weekly, year around. Obviously they are a very polished team. Congrats to them!

Jan and I missed the July meeting but Dennis Pierson, the new Assistant Director, handled the responsibilities with ease.

Taco Tuesday at the Rusty Needle and 4th Friday at Scrambles Sam's were well attended.

Summer is quickly passing with August upon us. For Jan and me, we are thinking we need to do some more riding before the good riding season ends.

Be sure to check out the proposed events calendar as there are still several good rides coming up. The Kansas and Oklahoma Rallies are also coming up in September. We hope to see many of you at these two Rallies.

By the way, **the September Chapter H meeting in September will be the FIRST Saturday, September 4th,** as the Kansas Rally in Independence is scheduled for the weekend of September 11th.

Once again, thanks to Chapter H members and everyone who participate in rides, or simply show support by being at events. It makes for a fun time when we can get together and share stories. There is no doubt that Kansas Chapter H members are the BEST.

Don & Jan Schroeder
KS-H Chapter Directors

And for even **MORE** fun....

1st Thursday - Chapter Q meeting, Boss Hog 314 W. 8th Winfield

2nd Thursday - Chapter A meeting at Spear's, 4323 W. Maple, Wichita

4th Tuesday – Chapter F meeting, at HeBrews 304 Main St, Towanda.

October 1-2 – KS District Campout (see flyer attached)

October 21-25 Vietnam Moving Wall in Valley Center (Noel Pollard hosting) Chapter ride date TBD

BIKES & BIOS

Don & Jan Schroeder with Earl and Pearl

We have found motorcycle riding to be a hobby we enjoy doing together. Over the years, we have traveled 50 states and 10 provinces on motorcycles. Many of them multiple times. The only state Jan did not ride, but was a passenger, is Hawaii, on a rented Harley. Our current rides are Earl and Pearl. Earl is a blue 2018 GW DCT and Pearl is a white 2020 GW DCT.

We joined GWRRA in 2009 and Chapter H in 2012 as charter members.

Don is a retired farmer, McPherson County commissioner and state legislator. His Master's Degree in Public Administration is from Wichita State University. He currently is a Harvey County commissioner. Jan is a semi-retired nurse practitioner, having spent the majority of her nursing, then nurse practitioner career in general surgery, and currently helps out on an as needed basis for the Hospitalist team at Newton Hospital.

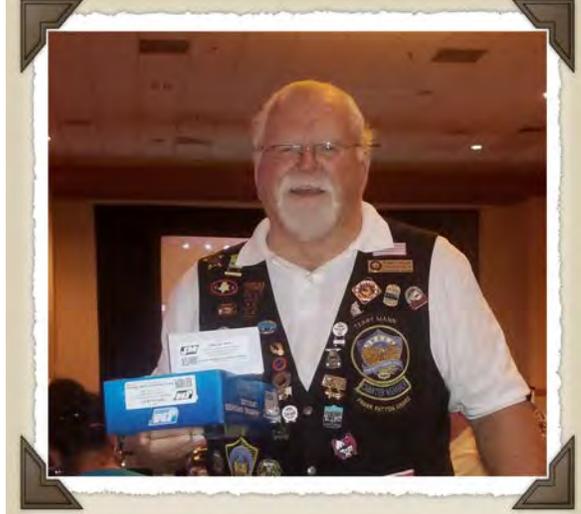

Family time includes 2 married children, and 6 grandchildren with one married, so that makes 7 grandchildren. They are divided between Omaha, NE and east of Buffalo, TX (2 hours south of Dallas).

When not riding, or going to or planning Goldwing events, we are busy with the church youth, hospitality events, trustees, and grounds maintenance, going on walks, and reading. Jan joined a small line dance for seniors exercise group in Newton.

In Case You Missed It

Being as our Directors were out gallivanting around the country, our newly appointed Assistant Directors, Dennis & Edie Pierson, conducted the KS-H meeting on July 10th and did a great job.

Daryl Regier, Steve Clayton and Noel Pollard regaled us with an entertaining account of their Smack Dab Ride from Lebanon, Kansas to Rugby, North Dakota.

Jeff Whithorn then discussed the Dunlop tire presentation he attended at Wing Ding, and touched upon weight limits and tire pressures.

Well another Wing Ding has come and gone, we hope all of you that were able to attend had a wonderful time. This year came with its own challenges, with the lack of employees at most of the businesses. We did however make it all work and want to say **Thank You** to the members of the Kansas group that were there to help with the light show. We're looking forward to next year at Shreveport, Louisiana, June 29th –July 2nd, so make your plans to join us.

We only have two birthdays coming up this month they are:

Rosemary Gardner on August 2nd

Wendy Daniels on August 23rd.

Happy Birthday Ladies!!

Until the next time,
Jack & Teresa Kistler

Appreciate your support!

Why should you call Law Tigers?

We get it. Most people don't want to involve a lawyer when they get hit on the road. Maybe the damage wasn't that bad, and you feel fine.

Here's the reality...

Without representation, there are no guarantees that you'll get a fair shake.

Hospitals, medical providers, and insurance companies fight to make a profit from the worst day of your life. Without the right motorcycle lawyer on your side you will be the only loser in that fight.

What Law Tigers Motorcycle Accident Attorneys do for their Clients

At Law Tigers, our main focus is to assist in the prevention of motorcycle accidents, and to promote motorcycle safety. However, when accidents do occur, a Law Tigers motorcycle accident attorney is there to assist you. Available for free consultations (at our office, hospital, or your home), we provide clients with aggressive, experienced representation. As motorcyclists ourselves, we understand the challenges that you are going through and are prepared to assist you every step of the way. Because we are committed to helping our fellow motorcycle riders, we work on a contingency basis. There are no up-front charges, and our motorcycle accident attorney will only receive legal fees upon conclusion of your motorcycle accident case.

Motorcycle Accident Representation: It's the only thing we do

If you have been injured as the result of another motorist's reckless, negligent, or careless driving, you may be entitled to compensation for any damages you suffer. A Law Tigers motorcycle accident attorney can help you get your life back on track and help you obtain the maximum settlement possible.

[Find a motorcycle accident attorney near you](#) or call Law Tigers, toll-free, at 1-888-863-7216. Our lawyers are available — 24 hours a day, 7 days a week.

How much does it cost to have Law tigers represent you?

Every attorney-client relationship with our personal injury lawyers begins with a free consultation. Once we have evaluated your motorcycle injury case and determined it is viable, we charge no fee. That means clients do not pay attorney fees unless we obtain compensation on their claim, either through a settlement or a trial.

RACKUP TRAILERS

Manufactured 100% in Tennessee, we make and sale new and pre-owned trailers for motorcycle, ATV, Razor, Jeep, Mini-Cooper, Smart Car, and other vehicles.

RackUp trailers is your premier source for motorcycle, utility vehicle, and small vehicle trailers. Why choose Rack Up? Rack Up trailers were designed by people who use them. Tracing our roots over a decade ago, we quickly noticed that the trailers on the market had suspension issues causing the trailer to bounce and handle poorly. We also noticed most trailers were set at a price point that were not feasible for a single transaction.

We set out to change that. First we worked with the suspension and developed an adjustable air suspension that does not bounce. Second we worked on the price point. Our approach allowed us to save money but also allows you to build your trailer buying the options you want as you go. Our experience on the road combined with our engineering and machining specialties allowed us to make a trailer far superior to any on the market today. We are confident that our trailer rises far to the top among the competition.
