***Some key sections from Article 19 - Signs of the Zoning Regulations:**

1903 - SIGN AREAS:

The sign area shall be that area enclosed by one rectangle or painted area, the side of which makes contact with the extreme points or edges of the sign, excluding the supporting structure which does not form part of the sign proper or of the display.

Where a double face sign is displayed, only one side shall be used in computation of the sign area.

The maximum area of a permanent sign face (per side) is as follows:

- Lot with a single business - 50 square feet
- Lot with 2-6 businesses - 110 square feet
- Lot with 7- more businesses - 150 square feet

1904 - GENERAL REQUIREMENTS:

Any person seeking to install a sign shall apply for a sign Certificate. An application for a Sign Certificate shall be made through the Zoning Inspector, on a standard form which shall include the following information:

1. A scale drawing of the property showing the location of the sign and for a wall sign, a scale drawing of the building showing the dimensions of all walls on which a sign is to be placed, including the building and signs in relation to adjacent property.
2. A scale drawing of the sign showing the size, height, construction details, type of materials to be used and information to be included on the sign.
3. The name and address of the person, firm, association, or corporation responsible for the construction, erection, and maintenance of the sign.
4. The number of signs.
